

**RECOMMENDATION BY ICCAT
ON BLUEFIN TUNA FARMING**

TAKING INTO ACCOUNT the increasing development of bluefin tuna farming activities, especially in the Mediterranean;

RECALLING the conclusions of 6th *Ad Hoc* GFCM/ICCAT Joint Working Group Meeting on Stocks of Large Pelagic Fishes in the Mediterranean Sea relative to the effects of the bluefin tuna farming and on the solutions that could be studied to regulate this activity;

CONSIDERING the advice of the 2001 Standing Committee on Research and Statistics (SCRS) on effects of bluefin tuna farming in the Mediterranean on the collection of data and consequently on stock assessment procedures;

DESIRING to gradually implement effective management measures that permit the development of bluefin tuna farming in a responsible and sustainable manner in relation to the management of bluefin tuna;

NOTING the potential advantages of the use of underwater video monitoring in estimating the number of fish,

THE INTERNATIONAL COMMISSION FOR THE CONSERVATION
OF ATLANTIC TUNAS (ICCAT) RECOMMENDS THAT:

- 1 Contracting Parties, Cooperating non-Contracting Parties, Entities or Fishing Entities (hereafter referred to as CPCs) whose flag vessels fish or transfer quantities of bluefin tuna to cages for farming shall undertake the necessary measures:
 - a to require that the captains of vessels carrying out transfer operations of bluefin tuna for caging maintain vessel logs and report the quantities transferred and the number of fish as well as the date, place of harvest and name of the vessel and of the company responsible for the caging.
 - b to require the reporting of the total amount of the transfers of bluefin tuna for fattening and farming, carried out by their flag vessels, and include this information in the Task I data.
 - c to set up and maintain a list of their flag vessels that fish for, provide or transport bluefin tuna for farming purposes (name of the vessel, flag, license number, gear type), i.e., fishing boat, transport vessel, vessels with pools, etc.
- 2 The CPCs under whose jurisdiction the farms for bluefin tuna are located in the Convention area shall adopt the necessary measures to:
 - a ensure that a caging declaration is presented by the operator in accordance with the ICCAT format in the attached Annex, on each fishing or transport vessel that participated in the transfer of tuna to cages for fattening, including the quantities of bluefin tuna destined for farming. This declaration shall include information relative to the quantities (in t) of fish transferred to the cages, the number of fish, the date, the place, the location of the harvest, the name of the vessel, as well as its flag and license number;
 - b ensure that the tuna farms and the national scientific institutes obtain data as specified in the following paragraph on the size composition of the fish caught as well as the date, time and area of catch and the fishing method used, in order to improve statistics for stock assessment purposes;

To this end, establish a sampling program for the estimation of the numbers-at-size of the bluefin tuna caught which requires notably that size sampling at cages must be done on one sample (= 100 specimens) for every 100 t. of live fish. Size sample will be collected during harvesting¹ at the farm,

¹ For fish farmed more than one year, other additional sampling methods should be established.

following the ICCAT methodology for reporting Task II. The sampling should be conducted during any harvesting, covering all cages. Data must be transmitted to ICCAT, by 31 July for the sampling conducted the previous year.

- c ensure the reporting of the quantities of bluefin tuna placed in cages and of estimates of the growth and mortality while in captivity and of the amounts sold (in t);
- d set up and maintain a registry of the farming facilities under their jurisdiction;
- e each CPC referred to in this paragraph shall nominate a single authority responsible for coordinating the collection and verification of information on caging activities and for reporting to and cooperating with the CPC whose flag vessels have fished the caged tuna.

This single authority shall submit, to the CPCs whose flag vessels have fished the caged tuna, a copy of each caging declaration referred to in paragraph 2 a, within one week after the completion of the transfer operation of bluefin tuna into cages.

- 3 CPCs mentioned in paragraphs 1 and 2 shall take the appropriate measures to verify the accuracy of the information received and shall cooperate to ensure that quantities caged are consistent with the reported catches (logbook) amount of each fishing vessel.
- 4 The CPCs that export farmed bluefin tuna products shall ensure that the description of these products includes "Farming" in the ICCAT Bluefin Tuna Statistical Document (BTSD) or the ICCAT Bluefin Tuna Re-exportation Certificate (refer to the *Recommendation by ICCAT Concerning the Amendment of the Forms of the ICCAT Bluefin/Bigeye/Swordfish Statistical Documents* [Rec. 03-19]).
- 5 The CPCs shall transmit, each year, to the Executive Secretary, prior to 31 August:
 - the list of flag vessels provided for in paragraph 1 c),
 - the results of the program referred to in paragraph 2 b),
 - the quantities of bluefin tuna caged during the previous year,
 - the quantities marketed during the previous year.
- 6 The CPCs mentioned in this recommendation as well as the Contracting Parties that import bluefin tuna shall cooperate, particularly through the exchange of information.
- 7 The Commission shall request non-Contracting Parties that farm bluefin tuna in the Convention area to cooperate in the implementation of this recommendation.
- 8 Based on the information referred to in paragraph 4, on the BTSD reports and the Task I data, the Commission shall review the effectiveness of these measures.
- 9
 - a The Commission shall establish and maintain an ICCAT record of farming facilities authorized to operate for farming of bluefin tuna caught in the Convention area (hereafter referred to as FFBs). For the purposes of this Recommendation, FFBs not entered into the record are deemed not to be authorized to operate for farming of bluefin tuna caught in the Convention area.
 - b Each CPC under whose jurisdiction FFBs are located shall submit electronically, where possible, to the ICCAT Executive Secretary by 31 August 2004 the list of its FFBs that are authorized to operate for farming of bluefin tuna. This list shall include the following information:
 - name of the FFB, register number,
 - names and addresses of owner (s) and operator (s),
 - location,
 - farming capacity (in t)
 - c Each CPC shall notify the Executive Secretary, after the establishment of the ICCAT record of FFBs, of any addition to, any deletion from and/or any modification of the ICCAT record of FFBs at any time such changes occur.

- d The ICCAT Executive Secretary shall maintain the ICCAT record of FFBs, and take any measure to ensure publicity of the record through electronic means, including placing it on the ICCAT website, in a manner consistent with confidentiality requirements noted by CPCs.
 - e The CPCs under whose jurisdiction FFBs are located shall take the necessary measures to ensure that their FFBs comply with the relevant ICCAT measures.
 - f To ensure the effectiveness of ICCAT conservation and management measures pertaining to bluefin tuna:
 - i CPCs under whose jurisdiction FFBs are located shall validate Bluefin Tuna Statistical Documents only for the farms on the ICCAT record of FFBs,
 - ii CPCs shall require farmed bluefin tuna, when imported into their territory to be accompanied by statistical documents validated for FFBs on the ICCAT record of FFBs and,
 - iii CPCs importing farmed bluefin tuna and the States that authorize the FFB shall cooperate to ensure that statistical documents are not forged or do not contain misinformation.
- 10 The SCRS shall undertake trials to identify growth rates including weight gains during the fattening or penning period.
- 11 This recommendation replaces the *Recommendation by ICCAT on Bluefin Tuna Farming* [Rec. 03-09].
