

Proposal on BFT-E allocation
(proposal submitted by Korea (Rep.))

Acknowledging that the allocation discussion during the 2022 Annual Meeting did not receive adequate time for deliberation, Korea (Rep.) recognizes the importance of sharing Panel 2 CPCs' initial views before the 2025 Annual Meeting, where the next allocation discussion is likely to occur.

While we acknowledge the complexity of factors involved in allocation process, Korea (Rep.) firmly believes that the following two overarching principles should guide our discussions:

- Mitigating the growing polarization of quotas among CPCs,
- Paying special attention to the needs of developing coastal CPCs.

In line with these principles, Korea (Rep.) would like to propose the following table for Panel 2's consideration:

<i>CPCs</i>	<i>Quota increase rate when the TAC increases by X%</i>	<i>Quota decrease rate when the TAC decreases by Y%</i>
Group A	0.5X %	1.5Y %
Group B	0.8X %	Y %
Group C	X %	0.8Y %
Group D	1.4X %	0.7Y %
Group E	1.6X %	0.5Y %
Group F	2X %	0.3Y %

The remaining amount will be allocated among developing coastal CPCs, considering their specific needs.

CPCs are grouped according to their nominal quota ranking as outlined below:

Group A	Whose quota ranking is in the top 10% of the PA2 members	Group D	30~50%
Group B	10%~20%	Group E	50~80%
Group C	20~30%	Group F	80~100%

* The number of CPCs for each group will be rounded off.
