## ICCAT CIRCULAR # 00340/2024

**SUBJECT: REMINDER - ICCAT WORKSHOP IN THE CARIBBEAN (WEST ATLANTIC) REGION FOR THE IMPROVEMENT OF STATISTICAL DATA COLLECTION AND REPORTING ON SMALL SCALE (ARTISANAL) FISHERIES** (*Panama City (Panama), 19-23 February 2024*)

Following ICCAT Circular #00108 of 8 January 2024, please find a gentle reminder regarding the upcoming regional workshop in the Caribbean (Western Atlantic) region for the improvement of statistical data collection and reporting on small scale (artisanal) fisheries, which is scheduled for 19-23 February 2024 in Panama City (Panama).

The workshop will involve statistical correspondents from the following Caribbean (Western Atlantic) countries:

- Barbados
- Belize
- Brazil
- Costa Rica
- Curaçao
- Grenada
- Guatemala
- Honduras
- Mexico
- Nicaragua
- Panama
- St Vincent and Grenadines
- Trinidad and Tobago
- Venezuela

Additional countries that are not ICCAT CPCs (e.g. Colombia and Dominican Republic) may be added to the list, but their attendance will be subject to the availability of funding.

The general objective of this workshop is to improve the monitoring and reporting of artisanal tuna and tuna-like fisheries, namely of billfishes, small tuna and tropical tuna artisanal fisheries statistics in the Caribbean region. To achieve this objective, preliminary work must be carried out by the statistical correspondents prior to the workshop. It is expected that each statistical correspondent engaged in the workshops submits an SCRS document with a **detailed description of the current national fisheries data collection program**. Accordingly, the Head Delegates from the **above highlighted ICCAT Contracting Parties** are kindly requested to nominate **by 18 January 2024 (18:00 Madrid time) at the latest**, the name and contacts of the Statistical Correspondent responsible for reporting data to ICCAT, that should attend the workshop. ICCAT will support the travel and subsistence costs of all the invited participants.

In addition, ICCAT will also invite **one Scientist** from each of the above-listed ICCAT Contracting Parties to participate in the workshop. Each invited scientist should be familiar with the Contracting Party's fisheries and have expertise relevant to the collection of data on these fisheries. Accordingly, interested scientists meeting these qualifications can apply for funding, by submitting their bids to [info@iccat.int](mailto:info@iccat.int) by **18 January 2024 (18:00 Madrid time) at the latest**. They should include a brief CV and a description of the rationale behind their interest in attending the workshop. The selection of the candidates will be made by an Evaluation Panel, composed by the SCRS Chair, the Workshop Coordinator and the ICCAT Secretariat. I would appreciate it very much if you could distribute this announcement to scientists who may contribute by participating in the workshop. This announcement will shortly be published also on the ICCAT [current meetings webpage](#).

Please receive the assurances of my highest consideration.

## ICCAT CIRCULAR # 00108/2024

**SUBJECT: ICCAT WORKSHOP IN THE CARIBBEAN (WEST ATLANTIC) REGION FOR THE IMPROVEMENT OF STATISTICAL DATA COLLECTION AND REPORTING ON SMALL SCALE (ARTISANAL) FISHERIES** (*Panama City (Panama), 19-23 February 2024*)

Following ICCAT Circular #2665 of 31 March 2023, I am pleased to inform you that the ICCAT Secretariat recently awarded a short-term contract to Dr. David Die ([ddie@earth.miami.edu](mailto:ddie@earth.miami.edu)) (USA) to prepare and develop a regional workshop in the Caribbean (Western Atlantic) region for the improvement of statistical data collection and reporting on small scale (artisanal) fisheries, which is scheduled for 19-23 February 2024 in Panama City (Panama).

The workshop will involve statistical correspondents from the following Caribbean (Western Atlantic) countries:

- Barbados
- Belize
- Brazil
- Costa Rica
- Curaçao
- Grenada
- Guatemala
- Honduras
- Mexico
- Nicaragua
- Panama
- St Vincent and Grenadines
- Trinidad and Tobago
- Venezuela

Additional countries that are not ICCAT CPCs (e.g. Colombia and Dominican Republic) may be added to the list, but their attendance will be subject to the availability of funding.

The general objective of this workshop is to improve the monitoring and reporting of artisanal tuna and tuna-like fisheries, namely of billfishes, small tuna and tropical tuna artisanal fisheries statistics in the Caribbean region.
