

**RESOLUTION BY ICCAT CONCERNING
THE CHANGE IN THE REGISTRY AND FLAGGING OF VESSELS**

RECALLING that ICCAT has adopted an extensive variety of conservation and management measures aimed at achieving the objective of the Convention of maximum sustainable catches of tunas and tuna-like species in the Convention area,

CONCERNED that, in spite of the adoption of these measures, large longliners that carry out illegal, unregulated and unreported fishing activities in the Convention area resort to constant changes in vessel names, registration and flags as new stratagems to undermine the effectiveness of the ICCAT conservation and management measures,

CONVINCED of the need to adopt new measures that result in halting the use of these practices to evade the ICCAT conservation and management measures,

THE INTERNATIONAL COMMISSION FOR THE CONSERVATION
OF ATLANTIC TUNAS (ICCAT) RESOLVES THAT:

- 1 As a prior condition for the registration or flagging of vessels, the Contracting and non-Contracting Parties should require the presentation of a Certificate of Deletion from the previous Registry or flag or any other proof of consent to the transfer of the ship, issued by the previous Contracting Party or non-Contracting Party State.
- 2 Prior to the registry of any fishing vessel, the CPC should investigate the history of compliance of the subject vessel in ICCAT and other regional management organizations, in order to determine if such vessel is on the negative lists and/or is currently registered in the sanctioned CPCs or non-Contracting Parties.
