**ICCAT SECRETARIAT REPORT TO THE COMPLIANCE  
COMMITTEE REGARDING COMPLIANCE WITH ICCAT CONSERVATION  
AND MANAGEMENT MEASURES CURRENTLY IN FORCE**

( October 2015)

The structure of this report follows the index of the Active Compendium, with the aim of facilitating a better overview of compliance with all ICCAT conservation and management measures. The relevant information submitted in accordance with each measure has been reported under the relevant title, including some requests for clarification as appropriate. Additional documents have been submitted to the Compliance Committee where the amount of information is too substantial to include in this report. In some cases, there is no direct reporting requirement, but CPCs should include information on the implementation of such measures in Section 4 of their Annual Reports (distributed as COC-301/15). **Table 14** to this report shows measures which do not have any direct reporting requirement, and the implementation of which have been reported through Annual Reports. This table is included for illustration purposes as it may not be exhaustive; in some cases measures may not be relevant to some CPCs; in other cases it may be difficult to determine whether a CPC is reporting on a particular measures. The Compliance Committee may wish to give more on how to report on implementation of measures in the future, to obtain a more complete picture.

**1. BET - Bigeye tuna (*Thunnus obesus*)**

**[14-01] Recommendation by ICCAT on a Multi-Annual Conservation and Management Program for Tropical Tunas** [Note: this plan also relates to yellowfin and skipjack tunas]

*Catch limits:* For compliance with quotas/catch limits, please see the Compliance Annex (COC-304/15).

*Capacity:* According to para. 2 c) “Ghana shall be allowed to change the number of its vessels by gear type within its capacity limits communicated to ICCAT in 2005, on the basis of two bait boats for one purse seine vessel. Such change must be approved by the Commission. To that end, *Ghana shall notify a comprehensive and detailed capacity management plan to the Commission at least 90 days before the Annual meeting.* The approval is notably subject to the assessment by the SCRS of the potential impact of such a plan on the level of catches.”

The Secretariat requests clarification relating to whether or not the capacity management plan for Ghana is an annual requirement, or whether the submission of the original plan is sufficient. No plan was submitted in 2015, but the Secretariat has received a letter of clarification of the procedure being implemented by Ghana, and a request for clarification regarding:

**Request for clarification of paragraph 2 c) of Rec. 14-01:**

At what point does the country notify ICCAT of the replacement of the two (2) baits with one (1) purse seiner for ICCAT approval?

If a company had gone through the process to register and obtain fishing licence for the purse seiner and deleted the two (2) bait boats and Ghana then applies for approval by ICCAT, what happens to the vessel? Does the purse seiner stay in port until ICCAT grants the approval?

The full letter is contained in **Annex 5** to this Report.

*List of authorised Tropical Vessels:* In terms of fishing fleet, as of 16 October 2015, there are 1501 vessels registered in the ICCAT Record authorized to fish for tropical species, 71 of which the authorisation has expired (**Table 13**). See also Table 3 of **PWG-401/15**.

In terms of potential non-compliance with current ICCAT regulations, there have been three cases of information submitted which is not in accordance with the deadlines specified in Rec. 11-01/14-01, paras 4-6, mainly due to late submissions:

Brazil (2): vessels' submissions of 20/03 and 24/08/2015, where retroactive registration dates were requested.

Vanuatu (1): vessels' submission of 26/03/2015, where retroactive registration dates were requested.

Annual list by 1 July 2015 of authorized vessels which fished bigeye and/or yellowfin and/or skipjack tunas in previous year is contained in **Annex 4**.

See also **COC-308/15**.

*Implementation of the area/time closure:* reports received from Curaçao, EU, Ghana and Guatemala are contained in **Appendix 3**.

*FAD management plans and steps undertaken to use non-entangling FAD:* FAD management plans were received in 2015 from Curaçao and Ghana, and are attached as **Annex 6**. These reports also include some information in relation to the use of non-entangling devices.

*Data and information collected from sampling programme*

In 2015, a tenth statistical data submission form (ST10-PortSamp) was created to collect data and information collected from the sampling programme covered under Rec. [14-01]. For the reporting period, submissions were received from three CPCs, namely Canada, Bolivia and the UK-OT, with only Canada providing actual data.

*Observer Programme:* It is not possible to determine compliance with observer requirements, as CPCs are not obliged to submit dates of deployment, nor the information on which vessels may fish in the area during the FAD closed season. In some cases, tentative voluntary information was submitted.

No reports were received directly from observers within the 20 days specified by Rec. 14-01.

In 2015, observer reports for the 2015 closure were received from EU in respect of Spanish vessels and one from Panama. Reports from the 2014 closure were received in 2015 from Curaçao and Panama and data from the 2014 closure from Ghana.

Summary of observer reports received in 2015:

Year of observation	Reports		Data sheets	
	2014	2015	2014	2015
Curaçao	3			
EU-Spain		12		6
Ghana			20	
Panama	2	1		1

Given that a) there is no standard format for data reporting; b) there is no centralised data base available to the Secretariat and c) the data reported have been from different years, no analysis of the data has been carried out.

The Compliance Committee may wish to request Panel 1 to clarify reporting procedures for observer reports/data.

**[14-02] Recommendation by ICCAT Concerning the Implementation of an Atlantic Ocean Tropical Tuna Tagging Programme (AOTTP)**

The contract was signed with EU in June 2015. In addition to the principal funding by EU, funds have been provided by USA and Chinese Taipei. See also **PLE-104/15**.

**[14-03] Recommendation by ICCAT to establish an ad hoc Working Group on Fish Aggregating Devices (FADs)**

The meeting was held in Madrid, 11-12 May 2015. The report is available on: [http://www.iccat.int/Documents/Meetings/Docs/2015\\_FADs\\_WG\\_report.pdf](http://www.iccat.int/Documents/Meetings/Docs/2015_FADs_WG_report.pdf)

2. SWO - Swordfish (*Xiphias gladius*)

*[94-14] Recommendation by ICCAT for the management of Atlantic swordfish*

This measure was left active due to paragraph 6, for which no specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

The Commission may wish to review the need for this requirement and/or include it in future measures, as the remaining paragraphs are obsolete.

*[01-04] Resolution by ICCAT for evaluating alternatives to reduce catches of juveniles or dead discards of swordfish*

SCRS review is contained in **PLE-104/15**.

*[03-04] Recommendation by ICCAT relating to Mediterranean Swordfish*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 15**).

*[13-02] Recommendation by ICCAT for the Conservation of North Atlantic Swordfish*

For compliance with quotas/catch limits, please see **COC-304/15**. Management plans are contained in PA4-801. Plans were received in 2015 from the following CPCs:

It would be helpful if the Commission could give some guidance as to what information should be contained in these reports.

**[13-03] Recommendation by ICCAT on South Atlantic Swordfish Catch Limits**

For compliance with quotas/catch limits, please see **COC-304/15**.

**[13-04] Recommendation by ICCAT for Management Measures for Mediterranean Swordfish in the Framework of ICCAT**

*List of authorized vessels:*

Algeria, European Union, Morocco, Tunisia and Turkey made first submissions of authorized vessels before the deadline of 15 January 2015, although revised lists had to be requested in some cases due to errors in the submitted forms.

As of 16 October 2015, there have been 15806 vessels registered in the ICCAT Record of vessels, authorized to fish for Mediterranean Swordfish, among which 541 have their authorisation expired (by 30 September 2015), see Table 13. Please see also Table 3 of **PWG-401/15**.

Annual list by 30 June 2015 of special fishing permits of previous year is contained in **Annex 4**.

*Closure reports:* Reports of relevant information on controls and inspection related to the closed fishing season were received within the deadline from Algeria, European Union, Tunisia and Turkey, and are contained in **Appendix 1**.

**3. ALB - Albacore (*Thunnus alalunga*)**

**[98-08] Recommendation by ICCAT concerning the limitation of fishing capacity on northern albacore**

List of vessels no longer required in accordance with Rec. 14-10. No other specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[99-05] Recommendation by ICCAT concerning possible management measures for northern albacore*

This Recommendation reiterates the limitation on the number of vessels, but no reporting to the Secretariat required over and above the normal statistical data (Task I/Task II) and / or through section 4 of Annual Reports (see **Table 14**).

*[13-05] Supplemental Recommendation by ICCAT Concerning the North Atlantic Albacore Rebuilding Program*

For compliance with quotas/catch limits, please see **COC-304/15**.

*[13-06] Recommendation by ICCAT on the Southern Albacore Catch Limits for the period 2014-2016*

For compliance with quotas/catch limits, please see **COC-304/15**.

**4. BFT - Bluefin Tuna (*Thunnus thynnus*)**

*[01-08] Supplemental Recommendation by ICCAT on bluefin tuna research in the central North Atlantic Ocean*

This Recommendation stipulates that “UK-OT to report annually on exemption assignment”. It is unclear whether this Recommendation remains in force in light of the GBYP, or whether activities are ongoing.

The Commission may wish to consider rescinding this measure, or providing clarification as to ongoing activities.
---

*[01-09] Resolution by ICCAT regarding the SCRS mixing report on Atlantic bluefin tuna*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[06-07] Recommendation by ICCAT on Bluefin Tuna Farming*

The ICCAT Record of farms is published on the ICCAT web site. Annual lists/authorisations are not required. In many cases, farms are listed as authorised to operate on the ICCAT web site, but do not participate in the ICCAT Regional Observer Programme.

**Table 10** contains a summary of the farming reports received from: EU; Morocco; Tunisia and Turkey. No other CPCs with authorised farms participated in the ROP-BFT in 2015.

*[06-08] Resolution by ICCAT on Fishing Bluefin Tuna in the Atlantic Ocean*

No reporting to the Secretariat by CPCs is required.

*[08-06] Resolution by ICCAT Concerning Atlantic Bluefin Tuna Scientific Research on Stock Origin and Mixing*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**). Scientific studies coordinated by the GBYP are reported in **PLE-104/15**.

**[11-06] Recommendation by ICCAT Concerning the Atlantic-Wide Research Programme for Bluefin Tuna (GBYP)**

Although a few problems (and delays) were experienced with some CPCs, in general cooperation by CPCs with GBYP has been good. In addition to the report on activities Appendix 4 to **PLE-104/15**, information has been submitted through scientific papers (see SCRS/2015/144, SCRS/2015/147 and SCRS/2015/149). Data from the Research Mortality Allowance (RMA) are included in detail in SCRS/2015/145, and summarized in SCRS/2015/144.

**[14-04] Recommendation by ICCAT Amending the Recommendation 13-07 by ICCAT to Establish a Multi-Annual Recovery Plan for Bluefin Tuna in the Eastern Atlantic and Mediterranean**

For compliance with quotas/catch limits [pertaining to 13-07], please see **COC-304/15**.

*Vessel lists:*

Libya: an “E-BFT-Other vessel” submission made on 22/05/2015 was not in accordance with the provisions of Rec. 14-04, Para. 52.), as the 15 days prior to the initial date of authorisation was not respected. This late submission was made along with a written justification where the reason given would be due to the unstable situation in Libya.

Panama: a “Carrier & BFT-Other vessel” submission made on 16/07/2015 was not in accordance with the provisions of Rec. 14-04, Para. 52.), as the 15 day prior to the initial date of authorisation for any transshipment of BFT was not respected. The Secretariat informed Panama of the current provisions, regarding retroactive registration, but Panama has requested that the vessels be entered with the retroactive dates as submitted. See also **COC-308/15**.

*Catch Reporting:*

The *Tables 12a and 12b* as presented in document **PLE-105A/15**, show reported weekly and monthly catches of bluefin tuna. A summary of CPC reporting of monthly catch reports is shown in **Table 8** while weekly reporting is shown in **Table 7**. A comparison between weekly and monthly catches reported is shown in **Table 9**.

In accordance with Rec. 14-04, par. 69, CPCs have informed of the following date of closure:

\* Fishing season still open at time of writing.

*VMS transmission:*

This year, until 10 October 2015, a total of 1563185 VMS messages have been received (for this overall calculation the messages that the system identifies as port positions have not been taken into account). This means that for the same period 130917 more messages have been received or approximately 9% more messages from one year to the next. In this same period, 651 vessels have been active (as for the messages, active vessels are considered to be those which have sent at least one message with an out of port position), which are 9 vessels less than last year or approximately 2% less.

It should be highlighted that for the second consecutive year since the inception of the VMS project, messages have not been received from unknown vessels, i.e. not registered on the ICCAT vessel list. This demonstrates the increasing involvement of CPCs in the VMS programme.

For more details regarding messages transmitted, please see **Tables 4, 5 and 6**.

*Inspection reports under Joint Inspection Scheme and list of agencies and inspectors' names:*

Please see **Tables 1 and 2**.

*Observer programmes:*

National programmes: SCRS suggests the adoption of the standard format for observer data similar to that developed by Sub-committee on Ecosystems to overcome problems of confidentiality in the submission of reports. EU reports were submitted with confidential information for SCRS. Other CPCs included data in regular statistical data submissions, as requested by the Secretariat, until a standard format can be considered.

ROP: Potential non-compliance (PNCs) issues and responses, as well as copies of the observer reports, are contained in **COC-305/15**.

*Farming:* **Table 10** shows a summary of the information received through farming reports. No caging after 15 August 2015 has been reported.

*Reports on Implementation of Rec 13-07/14-04:* Reports have been received from all CPCs which have been allocated a quota for east Atlantic/Mediterranean bluefin tuna except Syria. The full reports are contained in document **COC-302/15**.

*[14-05] Recommendation by ICCAT Amending the Supplemental Recommendation by ICCAT Concerning the Western Atlantic Bluefin Tuna Rebuilding Program*

For compliance with quotas/catch limits [pertaining to 13-09], please see **COC-304/15**.

**5. BIL - Billfishes: Blue marlin (*Makaira nigricans*), White marlin (*Tetrapturus albidus*)  
Sailfish (*Istiophorus albicans*), Spearfish (*Tetrapturus pfluegeri* and *T. belone*)**

*[12-04] Recommendation by ICCAT to Further Strengthen the Plan to Rebuild Blue Marlin and White Marlin Populations*

For compliance with quotas/landing limits, please see **COC-304/15**.

CPCs should report in their annual report steps taken to implement the Rec. 12-04 through domestic law or regulations, including MCS measures. Annual Reports are contained in **COC-301/15**.

**6. BYC - By-catch Species**

*[95-02] Resolution by ICCAT on cooperation with the Food and Agriculture Organization of the United Nations (FAO) with regard to study on the status of stocks and by-catches of shark species*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**). ICCAT has agreed to cooperate with CITES to provide training workshops in West Africa to improve pelagic shark species identification and data collection.

*[03-10] Resolution by ICCAT on the shark fishery*

Paragraph 1 is limited in time to an action in 2004. Paragraph 2 does not require any reporting to the Secretariat.

*[04-10] Recommendation by ICCAT concerning the conservation of sharks caught in association with fisheries managed by ICCAT*

Data reporting is through Task I and Task II, and other relevant information regarding implementation should be included in annual reports. No direct reporting of shark fins required, no non-compliance on this issue has been reported to Secretariat.

*[07-06] Supplemental Recommendation by ICCAT Concerning Sharks*

See **PLE-105A/15** for details of Task I and Task II data received.

*[07-07] Recommendation by ICCAT on Reducing Incidental By-Catch of Seabirds in Longline Fisheries*

See Rec. 11-09 below.

*[09-07] Recommendation by ICCAT on the Conservation of Thresher sharks Caught in Association with Fisheries in the ICCAT Convention Area*

Reporting is through Task I and Task II and using the newly developed National Observer Programme

data collection forms. This information is contained in **PLE-105A/15**. No documents directly related to research on nursery areas have been submitted to SCRS in either 2014 or 2015. Other relevant information regarding implementation should be included in annual reports.

*[10-06] Recommendation by ICCAT on Atlantic Shortfin Mako Sharks Caught in Association with ICCAT Fisheries*

Actions taken by CPC (improvement of data for direct and incidental catches) shall be reviewed annually by the Compliance Committee. The summaries on the implementation of shark-related measures are contained in **COC-303/15** Annex 4.

*[10-07] Recommendation by ICCAT on the Conservation of Oceanic Whitetip Sharks caught in association with fisheries in the ICCAT Convention Area*

Reporting is through Task I and Task II and using the newly developed National Observer Programme data collection forms. This information is contained in **PLE-105A/15**

*[10-08] Recommendation by ICCAT on Hammerhead Sharks (family Sphyrnidae) caught in Association with Fisheries Managed by ICCAT*

Reporting is through Task I and Task II and using the newly developed National Observer Programme data collection forms. This information is contained in **PLE-105A/15**. No notifications regarding international trade have been received. Other relevant information regarding implementation should be included in annual reports (see **COC-301/15**).

*[10-09] Recommendation by ICCAT on the By-catch of Sea Turtles in ICCAT Fisheries*

See Rec 13-11 below.

*[11-08] Recommendation by ICCAT on the Conservation of Silky Sharks Caught in Association with ICCAT Fisheries*

CPCs should report in the annual report steps taken to implement the Rec. 11-08 through domestic law or regulations, including MCS measures. Annual Reports are contained in **COC-301/15**. No notifications regarding international trade have been received.

*[11-09] Supplemental Recommendation by ICCAT on Reducing Incidental By-Catch of Seabirds in ICCAT Longline Fisheries*

Seabird incidental by-catch is included in **PLE-105A/15**. Mitigation measures and other actions reported by CPCs are shown below:

<i>Submitted in 2015</i>							
	<i>China</i>	<i>Iceland</i>	<i>Japan</i>	<i>Turkey</i>	<i>Uruguay</i>	<i>Vanuatu</i>	<i>Chinese Taipei</i>
Night setting	Yes	No	Yes	Partially	Yes (2 of 3 obligatory)	Yes	Voluntary

Line weighting	Yes	Floats to cover line	Yes	Voluntary	Yes (2 of 3 obligatory)	No	Yes

- Algeria: As regards the report on the implementation of Rec. 11-09, it should be noted that the artisanal character of the Algerian fishery as well as the longlines used are small in size when used by the coast. Furthermore, it should be noted that seabird by-catch has not been observed by our fishermen and scientists.

- Barbados: Fishers will be instructed to note any incidences of sea bird entanglements with the fishing gear in their trip records. In addition the use of Tori lines to reduce such occurrences will be promoted.

- Belize has issued a circular to all concerned Parties, consistent with the recommendation.

- Brazil has Inter-ministerial Rule No. 07, 30 October 2014, establishing the mandatory use of mitigation measures to reduce seabird by-catch by longline fleet that operate in waters over Brazilian jurisdiction, South of 20° S of latitude.

- Canada: In July 2012, Canada provided a Progress Report on the Implementation of Key Actions Taken Pursuant to this National Plan of Action (March 2007).

- EU-Portugal: Fishermen fishing in areas where the interaction with seabird is likely to occur are encouraged to set the gear after sun set, reduce light to minimum levels and make use of tori lines. Observers on board provide guidance on how to prepare and set tori lines.

- Korea is currently preparing NPOA for seabirds but does not usually fish in the designated area.

- Morocco, Senegal, UK OT Bermuda: No interactions or catches.

- Namibia is currently in the process to finalise the NPOA for seabirds. The draft regulations aimed at reducing seabird by-catches have been prepared and are now being checked by the legal drafters. As soon as this process is done, the NPOA regulations shall become part of the conditions of licences issued to fishing vessels and the implementation of the NPOA shall become effective.

- Trinidad & Tobago: No mitigation measures or NPOA for seabirds implemented

- UK OT Turks & Caicos: The conditions of approval for the US longliner involved in the pelagic fishing study in the Turks and Caicos Islands recommended that it set its lines at night, recorded any bird bycatch as BPUE (birds per unit effort) and required the operator to make every effort to reduce bycatch. No birds were caught by this longliner in 2014.

- Countries explicitly stating the recommendation does not apply: Albania, Algeria, Cape Verde, Curacao, Egypt, El Salvador, Equatorial Guinea, France SPM, Ghana, Guatemala, Honduras, Mexico, Nigeria, Norway, Panama, Philippines, Russia, Suriname and USA.

Other information relating to the implementation of this measure may be found in CPC Annual reports (COC-301/15).

***[11-10] Recommendation by ICCAT on Information Collection and Harmonization of Data on By-catch and Discards in ICCAT Fisheries***

In accordance with this measure, CPCs are to report steps taken to mitigate by-catch and reduce discards as part of their Annual reports. Annual Reports are contained in **COC-301/15**.

*[12-05] Recommendation by ICCAT on Compliance with Existing Measures on Shark Conservation and Management*

CPCs were required to send, in 2013, a report on the actions taken for the implementation of shark measures. **Appendix 4** shows the actions reported to date, and those CPCs which have not reported on this.

*[13-10] Recommendation by ICCAT on Biological Sampling of Prohibited Shark Species by Scientific Observers*

An Annual report of the results achieved by the research project should be presented to the Shark Species Group and the SCRS – No reports received in 2015.

*[13-11] Recommendation by ICCAT Amending Recommendation 10-09 on the By-Catch of Sea Turtles in ICCAT Fisheries*

Incidental by-catch of sea-turtles is included in **PLE-105A/15**. Additional information on implementation of this measure may be found in CPC annual reports (**COC-301/15**).

*[14-06] Recommendation by ICCAT on Shortfin Mako Caught in Association with ICCAT Fisheries*

CPCs shall include in their annual report information on action taken domestically to monitor catches and to conserve and manage shortfin mako sharks. Annual Reports are contained in **COC-301/15**.

## **7. Monitoring and compliance:**

### **7.A GEN - General Issues**

*[75-02] ICCAT Scheme of Joint International Inspection*

This measure is currently only in force for E-BFT, as modified by Rec. 14-04. See 14-04 above.

*[94-09] Resolution by ICCAT on compliance with the ICCAT conservation and management measures (including Addendum)*

One vessel sighting sheet was submitted by Turkey in support of a report of IUU fishing. This is attached as **Annex 6** to this report. The EU has responded to the allegation through ICCAT Circular # 07194/15 of 13 October 2015. See also documents **PWG-401 and 405**.

*[96-14] Recommendation by ICCAT regarding compliance in the bluefin tuna and North Atlantic swordfish fisheries*

**COC-304/15** indicates any Party which has exceeded its catch limits.

*[96-15] Resolution by ICCAT on large-scale pelagic driftnets*

This Resolution “*CHARGES the Compliance Committee and the Permanent Working Group for the Improvement of ICCAT Statistics and Conservation Measures (PWG) to monitor compliance with the U.N. Resolutions within the ICCAT Convention Area with a view to adopting adequate measures.*”

The Secretariat is not in a position to make any report on this.

*[97-01] Recommendation by ICCAT to improve compliance with minimum size regulations*

Please see document COC-304/15.

*[97-08] Recommendation by ICCAT regarding compliance in the South Atlantic swordfish fishery*

Please see document COC-304/15.

*[97-11] Recommendation by ICCAT on transshipments and vessel sightings*

No information has been reported to the Secretariat under this Recommendation.

*[98-11] Recommendation by ICCAT concerning the ban on landings and transshipments of vessels from non-Contracting Parties identified as having committed a serious infringement*

No information has been reported to the Secretariat under this Recommendation.

*[99-12] Resolution by ICCAT concerning the need for new approaches to deter activities that diminishes the effectiveness of ICCAT conservation and management measures*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**). Twenty four ICCAT CPCs are signatories to the UNFSA.

*[00-14] Recommendation by ICCAT regarding compliance with management measures which define quotas and/or catch limits*

See COC-304/15 for details of authorised adjustments.

*[01-12] Recommendation by ICCAT regarding the temporary adjustment of quotas*

Authorised adjustments are contained in the various Recommendations and reflected in COC-304/15.

*[01-13] Supplemental Recommendation by ICCAT Regarding Compliance in the Bluefin Tuna and Atlantic Swordfish Fisheries*

The table contained in the Recommendation is outdated and may no longer be pertinent. The Commission may wish to consider the possibility of rescinding this Recommendation in favour of specific provisions in the species related Recommendations.

*[01-18] Resolution by ICCAT further defining the scope of IUU fishing*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[02-26] Resolution by ICCAT concerning cooperative actions to eliminate illegal, unreported and unregulated fishing activities by large-scale tuna longline vessels*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[03-12] Recommendation by ICCAT concerning the duties of Contracting Parties and Cooperating non-Contracting Parties, Entities or Fishing Entities in relation to their vessels in the ICCAT Convention area*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[03-13] Recommendation by ICCAT concerning the recording of catch by fishing vessels in the ICCAT Convention area*

“All commercial fishing vessels over 24 m length overall shall keep a bound or electronic logbook [for] recording the information...”

No direct reporting to the Secretariat is required, although information may be included in CPC annual reports (See **Table 14**). Please see entry for Rec. 12-06 regarding potential non-compliance.

*[03-16] Recommendation by ICCAT to adopt additional measures against illegal, unreported and unregulated (IUU) fishing*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[04-12] Recommendation by ICCAT to adopt measures concerning sport and recreational fishing activities in the Mediterranean Sea*

Reporting on sport and recreational fishing included in Task I/Task II data. The following CPCs have specifically provided information: Algeria, EU, Turkey, while most other CPCs specified that this recommendation does not apply to them.

*[05-07] Resolution by ICCAT concerning the change in the registry and flagging of vessels*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[05-08] Resolution by ICCAT on circle hooks*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[06-13] Recommendation by ICCAT Concerning Trade Measures*

Information received from Japan, Norway, Philippines, Tunisia, Turkey and Chinese Taipei contained in Annex 1 (electronic only). The responses from CPCs to letters of concern are contained in **COC-309/2015**.

*[06-14] Recommendation by ICCAT to Promote Compliance by Nationals of Contracting Parties, Cooperating Non-Contracting Parties, Entities or Fishing Entities with ICCAT Conservation and Management Measures*

No reports were submitted to the Secretariat in 2015 under this Recommendation.

*[07-08] Recommendation by ICCAT Concerning Data Exchange Format and Protocol in Relation to the Vessel Monitoring System (VMS) for the Bluefin Tuna Fishery in the ICCAT Convention Area*

Some of the following should be improved – and that, as in previous years, occurs with Panama, in particular:

- Specific discrepancies regarding data on vessels: among the data received via VMS and those sent by CPCs for the ICCAT record of vessels.
- Messages received and not correctly formatted in accordance with the NAF format established in Rec. 07-08.

It should be noted that, as regards the transmittal date of messages by CPCs: EU- Portugal, EU-Ireland and Syria have not reported during the campaign.

*[08-09] Recommendation by ICCAT to Establish a Process for the Review and reporting of Compliance Information*

No submissions from NGOs relating to potential non-compliance were submitted in 2015.

*[08-10] Recommendation by ICCAT to Harmonize the Measurement of Length of the Vessels Authorized to Fish in the Area of the Convention*

This Recommendation contains only a definition. No submissions are required by CPCs.

*[09-09] Recommendation by ICCAT Amending Three recommendations in Conformity with the 2009 Recommendation by ICCAT Concerning the Establishment of an ICCAT Record of Vessels 20 Metres in Length Overall or Greater authorized to Operate in the Convention Area*

No specific reporting to the Secretariat is required other than through section 4 of Annual Reports (see **Table 14**).

*[10-10] Recommendation by ICCAT to Establish Minimum Standards for Fishing Vessel Scientific Observer Programs*

Since the adoption of 10-10, the Secretariat developed a form for the submission of information relating to implementation of observer programmes. Nineteen CPCs to date have submitted the completed form. One additional CPC submitted information in 2011 before the use of this format, and one more CPC indicated in its annual report that a scientific observer programme is in place, but details have not been received. Twelve CPCs have also specifically reported on alternative monitoring measures.

The information submitted since adoption of 10-10 is summarised in the table below.

<i>Year</i>	<i>CP45 form</i>	<i>Alternative measures</i>	<i>ST09 form</i>	<i>No format</i>
2011				Chinese Taipei, Ghana, Korea, Iceland, Japan, Tunisia, Mexico, Namibia, USA, Canada, Uruguay and EU (France). *

**[11-11] Recommendation by ICCAT to Clarify the Application of Compliance Recommendations and for Developing the Compliance Annex**

Please refer to document **COC 304/15**.

*[11-13] Recommendation by ICCAT on the Principles of Decision Making for ICCAT Conservation and Management Measures*

No reporting to the Secretariat required by CPCs. For SCRS report, please see **PLE-104/15**.

*[11-14] Resolution by ICCAT to Standardize the Presentation of Scientific Information in the SCRS Annual Report and in Working Group Detailed Reports*

No reporting to the Secretariat required by CPCs. For SCRS report, please see **PLE-104/15**.

*[11-15] Recommendation by ICCAT on Penalties Applicable in Case of non-Fulfilment of Reporting Obligations*

Following the 2014 Compliance Committee meeting, the Secretariat followed the instructions of the Chair of the Compliance Committee to determine whether or not actions needed to be taken under Rec. 11-15. Twenty CPCs received letters in February 2015 informing them that they were prohibited from retaining such species for which neither Task I data nor confirmation of zero catches had been received.

Between February 2015 and the time of writing (October 2015) missing data or confirmation of zero catch had been received from thirteen of these CPCs, and the prohibition was lifted from Algeria; Curaçao; Egypt; Guinea Equatorial; Korea Republic; Mexico; Namibia; Senegal; Sierra Leone, St. Vincent and the Grenadines, Syria, Trinidad & Tobago and Chinese Taipei.

Retention prohibitions on certain species in due to no reporting of 2013 data remain in force for Angola, Barbados, Côte d'Ivoire, Philippines, South Africa, and Vanuatu.

In 2015, following Secretariat and SCRS review, including consultation with statistical correspondents during species working groups to determine zero catches as appropriate, only a small number of CPCs were found to have missing data. The Secretariat has followed up with these CPCs to request either the submission of data (albeit late), data in ICCAT format, or confirmation of no catches.

At the time of writing, Task I submissions are pending from Mauritania and Nicaragua.

It should be noted that not all the data submitted by the other CPCs passed the SCRS filtering criteria (filter 1 only; details in Addendum 1 to Appendix 8 of the SCRS report) for acceptance. The Secretariat is working with these CPCs in order properly revise/correct the data provisionally (as required by the SCRS) included in Task I. Adherence to the SCRS validation protocol (filters 1 and 2) which includes the correct completion of forms will be required in the future in order for data to be considered submitted. Any CPCs with doubts regarding the correct completion of the statistical forms is invited to contact the Secretariat for explanation and assistance in this regard.

The full tables showing the status of CPC statistical data submission in 2015 is contained in **PLE-105A/15**.

*[11-17] Resolution by ICCAT on Best Available Science*

Please see SCRS Report (**PLE-104/15**); Rec. 14-13 below and **PLE-103/15** for Terms of Reference for Performance Review.

*[11-18] Recommendation by ICCAT Further Amending Recommendation 09-10 Establishing a List of Vessels Presumed to Have Carried out Illegal, Unreported, and Unregulated*

*Fishing Activities in the ICCAT Convention Area*

The Provisional IUU list is contained in document **PWG-405/15**. One vessel from one ICCAT Contracting Party has been reported for inclusion on the draft list in 2015.

*[12-06] Recommendation by ICCAT on a Programme for Transshipment*

The number of longliners authorised to tranship to each carrier vessel, by flag of the vessel is contained in **Table 12**.

More details on this Recommendation can be found in the Secretariat report contained in documents **PWG-402/15** and **COC-305/15**.

*[12-07] Recommendation by ICCAT for an ICCAT Scheme for Minimum Standards for Inspection in Port*

Lists of authorized ports and contact points have been received from twenty CPCs. Twenty CPCs have indicated that the Recommendation is not applicable. Equatorial Guinea has indicated in its Annual report that the list of authorized ports is not available and that the submission of inspection reports is not applicable. Trinidad and Tobago indicated applicability of the measure, and the submission of the list of authorised ports was pending receipt at the time of writing. No information regarding applicability is available for the following CPCs:

Angola; Brazil; Gabon; Guinea Republic; Mauritania; Nicaragua; Sao Tomé & Príncipe; Sierra Leone; Syria; Venezuela; Bolivia and Guyana.

The table below summarises the information available:

In order to improve compliance with this Recommendation, the Secretariat suggests that the Commission consider the development of a standard manual and of training courses, similar to those developed by IOTC. In addition, the implementation of the ePSM may be of interest to CPCs.

Bilateral agreements/arrangements between CPCs should be included in their annual reports (see COC-301/15).

*[13-12] Recommendation by ICCAT on the Rules of Procedure for the Standing Committee on Research and Statistics (SCRS)*

The SCRS Chair has initiated work on the proposed Code of Conduct, and has started to compile various codes and asked the Committee to provide further examples to collate and start development of a first draft. This would then be reviewed by the SCRS.

*[13-13] Recommendation by ICCAT concerning the Establishment of an ICCAT Record of Vessels 20 meters in Length Overall or Greater Authorized to Operate in the Convention area, as amended by Rec. 14-10*

There have been six submissions which are not in accordance with the provisions of Rec. 13-13; paragraphs 2 and 3, as amended by Rec. 14-10; paragraphs 1 and 2, mainly due to late submissions:

Belize (1): vessels' submission of 19/02/2015, where dates requested are retroactive and even prior to the dates of last expiration.

Brazil (3): vessels' submissions of 20/03, 14/04, and, 24/08/2015, where retroactive registration dates were requested.

Vanuatu (2): vessels' submissions of 26/03 and, 02/04/2015, where retroactive registration dates were requested.

See also **COC-308/15**.

Updates to reports on internal actions were submitted by Brazil, Belize, Curaçao, Ghana, Mexico, Norway and Russia. These are contained in the electronic **Annex 2** to this document.

*[13-14] Recommendation by ICCAT on Vessel Chartering*

**Table 3** shows a summary of the information submitted to ICCAT by CPCs. Summary reports submitted by CPCs are contained in **Appendix 2** to this document.

*[13-15] Resolution by ICCAT to Complete the Standardization of the Presentation of Scientific Information in the SCRS Annual Report*

Information is contained in **PLE-104/15**.

*[14-07] Recommendation by ICCAT on Access Agreements*

A summary of the information received is contained in **Table 11**. Information included in Annual Reports can be found in **COC-301/15**. The European Union has sent (23 October) a link containing all the relevant information for the access agreements signed between the EU and other ICCAT Contracting Parties [http://ec.europa.eu/fisheries/cfp/international/agreements/index\\_en.htm](http://ec.europa.eu/fisheries/cfp/international/agreements/index_en.htm). These have not been included on **Table 11**.

*[14-08] Recommendation by ICCAT to Support Effective Implementation of Recommendation 12-07 by ICCAT for an ICCAT Scheme for Minimum Standards for Inspection in Port*

A bilateral activity between Morocco and Senegal took place in 2015. Response to Circular #1159/15 has been very low, so the Secretariat is unsure as to what assistance is required. In 2015, the

Secretariat attended a Port Inspection training course held by the IOTC. This course could be adapted to ICCAT, but would require the contracting of a consultant to carry out the work.

The Secretariat continues to seek guidance from the Commission as to the way forward.

*[14-09] Recommendation by ICCAT Amending Recommendation 03-14 concerning minimum Standards for the establishment of a vessel fishing monitoring system in the ICCAT Convention area*

Refer to Rec. 14-04 above. No other reporting to the Secretariat is required, other than through annual reports for reporting on implementation or difficulties.

*[14-10] Recommendation by ICCAT to Harmonize and Guide the Implementation of ICCAT Vessel Listing Requirements*

The changes required through this Recommendation have been incorporated by the Secretariat into the database and guidelines. For more information on compliance with vessel listing requirements, please see Recs. 14-01, 13-04, 13-13, and 14-04.

*[14-11] Resolution Establishing Guidelines for the Cross-Listing of Vessels Contained on IUU Vessel Lists of other Tuna RFMOs on the ICCAT IUU Vessel List in Accordance with Recommendation 11-18*

The Secretariat seeks confirmation regarding the interpretation of this measure and the circulars for IUU vessel list. From the current measures and past practices it is now understood that a “final” list should be circulated 30 days after the circulation of information from another RFMO, unless there is any objection. In addition to this “final” list, a draft list, and then a provisional list should also be circulated as previously, which would contain those vessels reported by other RFMOs.

The Secretariat also seeks clarification on whether or not, notwithstanding the circulation of draft and provisional lists, CPCs may include vessels on the IUU list at the time of the Commission meeting, regardless of whether the vessel was submitted in accordance with the procedures contained in Rec. 11-18.

**7.B SANC - Sanctions, Trade-Related Measures**

*[02-20] Recommendation by ICCAT concerning the trade sanction against St. Vincent and the Grenadines*

No specific activities were carried out for St. Vincent and the Grenadines.

The Commission may wish to consider whether this measure is necessary, in light of the various developments in capacity-building.

*[04-13] Recommendation by ICCAT concerning the lifting of trade sanctions against Equatorial Guinea*

Equatorial Guinea has indicated that they require technical assistance from the Secretariat, but more details are needed in order to design a specific compliance mission.

The Commission may wish to consider whether this measure is necessary, in light of the various developments in capacity-building.

*7.C SDP - Statistical Document Programs*

*[01-21] Recommendation by ICCAT concerning the ICCAT Bigeye Tuna Statistical Document Programme*

More details can be found in doc. **PWG-401/15** (Section 1.) and **PLE-105A/15** (Tables 14b and 14c).

*[01-22] Recommendation by ICCAT establishing a Swordfish Statistical Document Programme*

More details can be found in doc. **PWG-401/15** (Section 1.) and **PLE-105A/15** (Tables 14b and 14c).

*[03-19] Recommendation by ICCAT concerning the amendment of the forms of the ICCAT bluefin/bigeye/swordfish statistical documents*

The forms have been amended as stipulated in the Recommendation.

*[06-16] Recommendation by ICCAT on an Electronic Statistical Document Pilot Program*

No information has been reported to the Secretariat.

*[08-11] Recommendation by ICCAT Amending Ten Recommendations and Three Resolutions*

No reporting to the Secretariat is required.

*[10-11] Recommendation by ICCAT on an Electronic Bluefin Tuna Catch Document Programme (eBCD)*

Progress on the implementation of the eBCD is contained in document **PWG-403/15**.

*[11-20] Recommendation by ICCAT Amending Recommendation 09-11 on an ICCAT Bluefin Tuna Catch Documentation Program*

More details are given in **PWG-401/2015**. Relating to Compliance, the Secretariat has noted that a) the unique identification number sequence as adopted in Rec. 11-20 is not always applied; b) the information on the BCDs is not always complete; c) BCDs are not always received within five working days of the catch; failure to submit summary of tagging programme.

The deadline for receipt of reports on carry-over of farmed fish was 9 June 2015. The following reports were received from CPCs with operative BFT farms:

<i>CPC</i>	<i>Date</i>
<b>EU</b>	08/06/2015
<b>Morocco</b>	not received*
<b>Tunisia</b>	06/05/2015 and 05/06/2015
<b>Turkey</b>	17/06/2015 (late)

\*According to Annual report, no carry over.

Annual reports on BCDs are published on the password protected area of the ICCAT web site. Reports were received from all concerned CPCs except Syria.

*[12-09] Recommendation by ICCAT on a Process towards the Establishment of a Catch Certification Scheme for Tuna and Tuna-Like Species*

This Recommendation is limited in time. The issue was discussed by IMM and Commission, but to date, no agreement has been reached.

*[13-16] Recommendation by ICCAT Amending Annex 1 of Recommendation 11-20 on an ICCAT Bluefin Tuna Catch Documentation Program*

The addition was made to the ICCAT data base and this data is currently entered in the ICCAT (non-electronic) system.

*[13-17] Recommendation by ICCAT Supplementing the Recommendation for an Electronic Bluefin Tuna Catch Document (eBCD) System*

In 2014, the Commission waived the requirement that the eBCD be fully implemented prior to 1 March 2015, due to technical difficulties. Development has continued, and the report of the technical working group is contained in document **PWG-403/15**.

**7.D TOR - Terms of Reference**

*[00-20] Resolution by ICCAT for integrated monitoring measures*

The tenth meeting of the IMM working group was held in Madrid, 25-27 February 2015. The report is available as **PLE-101/15**.

*[06-17] Resolution by ICCAT to Establish a Working Group on Sport and Recreational Fisheries*

The Recommendation required the Working Group to meet in 2007 or 2008. No meetings were held in 2015.

*[06-18] Resolution by ICCAT to Strengthen ICCAT*

The mandate of the Working Group stipulated in the Resolution has expired. The Commission may wish to consider future work for this group, or rescind the Resolution.

*[06-19] Resolution by ICCAT to Establish a Capacity Working Group*

The mandate of the Working Group stipulated in the Resolution has expired. The Commission may wish to consider future work for this group, or rescind the Resolution.

*[11-23] Recommendation by ICCAT to Amend the Terms of Reference of the Permanent Working Group for the Improvement of ICCAT Statistics and Conservation Measures (PWG)*

The Secretariat has nothing to report.

*[11-24] Recommendation by ICCAT to Amend the Mandate and Terms of Reference Adopted by the Commission for the ICCAT Conservation and Management Measures Compliance Committee*

The Secretariat has nothing to report.

**[11-25] *Resolution by ICCAT on a Program of Work for the Working Group on the Future of ICCAT***

The mandate of the Working Group stipulated in the Resolution has expired. The Commission may wish to consider future work for this group, or rescind the Resolution.

**[12-10] *Recommendation by ICCAT to Establish a Working Group to Develop Amendments to the ICCAT Convention***

The third meeting of this Working Group was held in Miami, 18-22 May. The report is available as **PLE-107/15**.

**[13-18] *Recommendation by ICCAT for Enhancing the Dialogue between Fisheries Scientists and Managers***

The second meeting of the SWGSM was held in Bilbao, 22-24 June 2015. The report is available as **PLE-112/15**.

**[14-12] *Recommendation by ICCAT to establish an ad hoc Working Group for Preparing the Next Performance Review***

The virtual Working Group was established. Their report and the draft Terms of Reference for the next performance review are contained in document **PLE-103/15**.

**[14-13] *Recommendation by ICCAT Amending the Recommendation by ICCAT for Enhancing the Dialogue between Fisheries Scientists and Managers***

The Working Group met in Bilbao 25-26 June 2015. The Report is available as **PLE-112/15**.

**7.E MISC - Miscellaneous**

**[66-01] *Resolution on the collection of statistics on the Atlantic tuna fisheries***

See document **PLE-105A/15**.

**[93-08] *Resolution by ICCAT on cooperation with the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)***

In 2015 ICCAT and CITES have agreed to collaborate in order to conduct two training courses for government staff (CITES Scientific Authorities and fisheries agencies) and other relevant stakeholders in the West Africa region (one in English and one in French) with regard to implementing the new CITES listings for sharks and rays.

**[93-09] *Resolution by ICCAT concerning the composition of the delegations of ICCAT Contracting Parties to CITES***

The Secretariat has nothing to report.

**[99-07] *Resolution by ICCAT on improving recreational fishery statistics***

Please see annual reports (COC-301/15). Although recreational fishery statistics are often included in

Task I and Task II, this may not be explicitly stated at time of submission.

*[99-13] Resolution by ICCAT endorsing the International Plan of Action for the Management of Fishing Capacity (IPOA)*

No reporting to the Secretariat is required.

*[01-16] Resolution by ICCAT on the deadlines and procedures for data submission*

See report of Sub-committee on Statistics, contained in document **PLE 104/15**.

*[03-20] Recommendation by ICCAT on criteria for attaining the status of Cooperating non-Contracting Party, Entity or Fishing Entity in ICCAT*

Four Parties, Entities, Fishing Entities currently enjoy cooperating status: Bolivia, Chinese Taipei, Guyana and Suriname. Bolivia has specifically requested renewal of such status, but in previous years the Commission agreed that it was not necessary for renewal to be requested.

In 2015, the ICCAT Secretariat wrote to Dominica, Grenada and St. Kitts & Nevis requesting them to consider becoming Cooperating Parties. No response to these requests was received. As previously, CARICOM has submitted an annual report containing information on these three countries.

Sta. Lucia has voluntarily submitted ICCAT statistical data for 2014.

*[03-21] Resolution by ICCAT on improvements in data collection and quality assurance*

For information regarding the Data Fund, please see **PLE-109/15**.

*[05-09] Recommendation by ICCAT on compliance with statistical reporting obligations*

See document **PLE-105A/15**.

*[05-11] Resolution by ICCAT on pelagic Sargassum*

The information presented by CPCs has been used to draft the response to the Commission, see below Res. 12-12.

*[12-11] Resolution by ICCAT Regarding the Presentation of Objections in the Context of Promoting Effective Conservation and Management Measures Adopted by ICCAT*

Turkey lodged an objection to Rec. 14-04. Their submission was circulated to all ICCAT Contracting Parties through ICCAT Circular # 04251/15.

*[12-12] Resolution by ICCAT on the Sargasso Sea*

The SCRS response is contained in **PLE-104/15**.

*[13-19] Recommendation by ICCAT on the Establishment of a Scientific Capacity Building Fund for Developing States which are ICCAT Contracting Parties*

Details on this fund and expenditures are included in **PLE-108/15**.

*[14-14] Recommendation by ICCAT amending Recommendation 11-26 on the Establishment of a Meeting Participation Fund for Developing ICCAT Contracting Parties*

Details on the fund and expenditures are included in **PLE-108/15**.

**Table 14.** Information in Part 4 of Annual Reports on implementation of specific measures.

Note: **Table 14** shows some of the conservation and management measures which do not specify any reporting requirements, nor has any specific provision stipulating that reporting should be included in Annual Reports. Please note that a) the list of measure may not be exhaustive; b) CPCs may have included discussion on implementation without citing the measure; c) some measures may not be applicable to all CPCs. The table is for illustration purposes which may serve the Commission in any future discussions regarding the information to be reported through annual reports, or any changes to annual report formats. The current format was adopted in 2012, but many CPCs continue to use previous formats (2004 and 1994), and hinders any analyses of the information submitted. Where CPCs have specifically referred to a measure, this has been noted with y. Where a CPC has merely stated that all ICCAT measures are implemented, this is noted in the column “all implemented”, even though in most cases details are not available.

Note : Le **Tableau 14** montre certaines des mesures de conservation et de gestion qui ne spécifient aucune exigence en matière de déclaration ou qui ne comptent aucune disposition spécifique stipulant que la déclaration devrait être incluse dans les rapports annuels. Il convient de noter que a) la liste des mesures risque de ne pas être exhaustive ; b) les CPC peuvent avoir inclus une discussion sur la mise en œuvre sans citer la mesure ; et c) certaines mesures pourraient ne pas être applicables à toutes les CPC. Le tableau, fourni à titre d'illustration, pourrait aider la Commission dans de futures discussions sur l'information devant être déclarée par le biais des rapports annuels ou sur tout changement apporté aux formats des rapports annuels. Le format actuel a été adopté en 2012, mais de nombreuses CPC continuent à utiliser les formats antérieurs (2004 et 1994) et ceci entrave l'analyse des informations transmises. Lorsque les CPC se sont spécifiquement référées à une mesure, ceci a été marqué par un "y". Lorsqu'une CPC a simplement signalé que toutes les mesures de l'ICCAT sont mises en œuvre, ceci est marqué dans la colonne "all implemented", même si dans la plupart des cas, les détails ne sont pas disponibles.

Nota: En la **Tabla 14** se incluyen algunas de las medidas de conservación y ordenación que no especifican ningún requisito de comunicación de información y que no incluyen disposiciones específicas que estipulen que la información deba incluirse en los informes anuales. Constatase que: a) la lista de medidas podría no ser exhaustiva; b) las CPC podrían haber incluido discusiones sobre la implementación sin citar la medida; c) algunas medidas podrían no ser aplicables a todas las CPC. La finalidad de la tabla es ilustrativa y la Comisión podría utilizarla en futuros debates sobre la información que tienen que incluirse en los informes anuales o para considerar cambios en el formato de los informes anuales. El formato actual se adoptó en 2012, pero muchas CPC siguen utilizando formatos anteriores (2004 y 1994) y esto dificulta cualquier análisis de la información presentada. En los casos en los que las CPC han mencionado específicamente una medida, esto se ha indicado con una y. Cuando una CPC simplemente ha declarado que se han implementado todas las medidas de ICCAT esto se ha señalado en la columna “all implemented”, aunque en muchos casos no se presentó información detallada.
