STATEMENT BY SENEGAL TO THE CHAIR OF THE ICCAT COMPLIANCE COMMITTEE

On behalf of the Republic of Senegal, I would like to thank the Chair of the ICCAT Compliance Committee for the efforts made to advance the Commission's decision-making process.

Following review of the documents presented, we would like to make the following comments:

Implementation and application of ICCAT requirements, focusing on priority issues and/or cases

As regards the revised draft version of COC-308 published as COC-308B and in relation to the vessel included in the IUU list (see PWG-405-B, 412, 415 and 416 for further details), Senegal reiterates its request for the current flag of the vessel *Mario 11* to be changed from Senegal to unknown on the IUU list, because it is considered that the elements to enable this change have been provided.

As regards the document PA1-502-A, Senegal notes that paragraph 4 c is not applied to the countries affected by this 10% reduction of average recent catches. It has been noted that in this document there are some calculation errors in the 2020 limits for some CPCs, in relation to paragraph 4-c of Rec. 19-02 (see PA1 502-Annex-bigeye tuna catch limits).
