

## STREAMLINING OF ICCAT CONSERVATION AND MANAGEMENT MEASURES

Given the difficulties of reaching decisions by correspondence, the Secretariat has not proposed any streamlining actions to the subsidiary bodies for 2020. Some issues remain pending from 2019, and may be discussed, if appropriate, in 2020. Below, in section 1, are listed the measures which were removed from the 2020 Active compendium as they were replaced by measures adopted in 2019 or removal had been agreed by the Commission at its meeting in 2019. Section 2 contains one measure which is being proposed for removal in the next Active Compendium as the actions adopted were limited in time and have now expired.
