Original: English

REPORT ON THE IMPLEMENTATION OF THE ICCAT REGIONAL OBSERVER PROGRAMME FOR EAST ATLANTIC AND MEDITERRANEAN BLUEFIN TUNA

(ICCAT Secretariat)

The Regional Observer Programme for eastern Atlantic and Mediterranean bluefin tuna (ROP-BFT) was carried out under the provisions of the *Recommendation by ICCAT Amending the Recommendation 18-02 Establishing a Multi-annual Management Plan for Bluefin Tuna in the Eastern Atlantic and the Mediterranean Sea* [Rec. 19-04] and of *Recommendation by ICCAT amending the recommendation 19-04 amending recommendation 18-02 establishing a multi-annual management plan for Bluefin Tuna in the eastern Atlantic and the Mediterranean* [Rec 21-08]. The provisions of these Recommendations stipulate that observers are to be placed by the Secretariat to ensure observer coverage of 100% of purse seine vessels during all the annual fishing season. In this respect, an observer shall be present during the fishing operation; and during all transfer of bluefin tuna to the cages and all harvest of fish from the cage; and during all transfers of bluefin tuna from traps to transport cages.

Implementation in 2022

The Secretariat is pleased to report that ICCAT Regional Observers have been embarked on all vessels (197) for which requests for observer deployment were received and confirmed. For this reason, the Secretariat's did not circulate any interim reports during the season, as the special procedures agreed by the Commission in 2020 were not invoked. The only observers of same nationality deployed on vessels were on Turkish vessels, which is due to the language issue and not due to COVID-19 related travel restrictions.

No sharing of observers for caging operations took place with the exception of the Turkish farm which has three licences, and hence three ICCAT numbers, but operates as one farm in the same location, as has been the case since the inception of the programme.

The list of vessels flagged to the ten CPCs participating in the programme is attached as **Table 1**.

Since 2009, 731¹ farm deployments and 25 trap deployments have been requested, as shown in **Table 2**. The list of farms participating in the programme is attached as **Table 3**, and a list of traps which were observed by regional observers contained in **Table 4**.

All observer reports have been made available to CPCs as Annex 1 and 2 to COC-305/2022. The lists of potential non-compliance issues detected by observers on vessels, farms and traps are contained in the appendices to COC-305/2021, together with the responses received.

The Consortium MRAG/COFREPECH continues to implement the Programme. The Report of this Consortium, available as **Annex 1** (Executive Summary attached as **Appendix 1**), contains more details on the implementation of the programme.

Failure to follow the procedures for requesting deployments on farms and extensions to approved deployments continues to cause difficulties in the implementation, e.g., requests after 96 hours – in some cases one day before or even the same day; or requests for observers are not accompanied by proof of payment. It should be noted that the Secretariat cannot process any requests for which payment has not been made. In addition, a number of requests for deployment on vessels are sent in advance but later cancelled, which creates problems for logistics as the port of embarkation is often not known (or is changed) very near the start of the campaign.

In 2022, Regional Observers were issued for the first time with ICCAT seals for use on transport cages where voluntary transfers were not of sufficient quality to allow the correct count of the fish, in accordance with paragraph 128 of Rec. 21-08.

-

¹ At 1 October 2022.

Future implementation

At present, no significant change is envisaged in the implementation of the ROP-BFT, unless required by any new measures adopted by the Commission. In the short term, early requests for deployment will facilitate timely deployment.

Table 1. List of the 197 purse seiner vessels which operated in 2022.

Consortium's report on the implementation of the ROP-BFT

Executive Summary

The service provider for implementing year thirteen (April 2022 / March 2023) of the ICCAT ROP-BFT (hereafter the Programme) comprises of a Consortium led by MRAG based in London and COFREPECHE in Paris, assisted by regional partners located around the Mediterranean (hereafter the Consortium).

The Programme allows the Commission to assess compliance with the regulatory framework. This report summarises the 192 deployments on authorised purse seiners during the 2022 fishing season, as well as the 37 farm deployments and 3 trap deployments completed to date since the start of the current contract. In addition, 42 farm deployments are included from the previous season following the submission of the last annual report and the start of the current contract.

One hundred percent observer coverage has been achieved on all authorised purse seiners, farms and traps within the remit of the Programme, which included monitoring all fishing, transfer, caging and harvesting activities, apart from the Norwegian fleet in 2021, which, as was the case in 2020, the Norwegian Authorities did not permit the deployment of ROP observers due to health and safety concerns relating to COVID-19.

This report describes the key issues and developments in implementing the Programme in year thirteen in line with the requirements. These are divided into operational and technical categories and provide perspective on issues that affected the observer role during deployments. The ability of observers to estimate numbers of tuna and comparisons with official estimates during transfer and caging operations are reviewed. Potential non-compliance events recorded by observers are summarised, including both those reported for transfer and caging operations as well as for general events.

This year the COVID-19 pandemic had a far reduced impact than in 2020 and 2021, and regional travel of observers was less restricted, allowing observers of other nationalities to embark vessels across all CPCs with the exception of Türkiye.
