

**Update of some indicators on the
Secretariat's workload in recent years**

ICCAT Secretariat

ICCAT CICTA CICAA

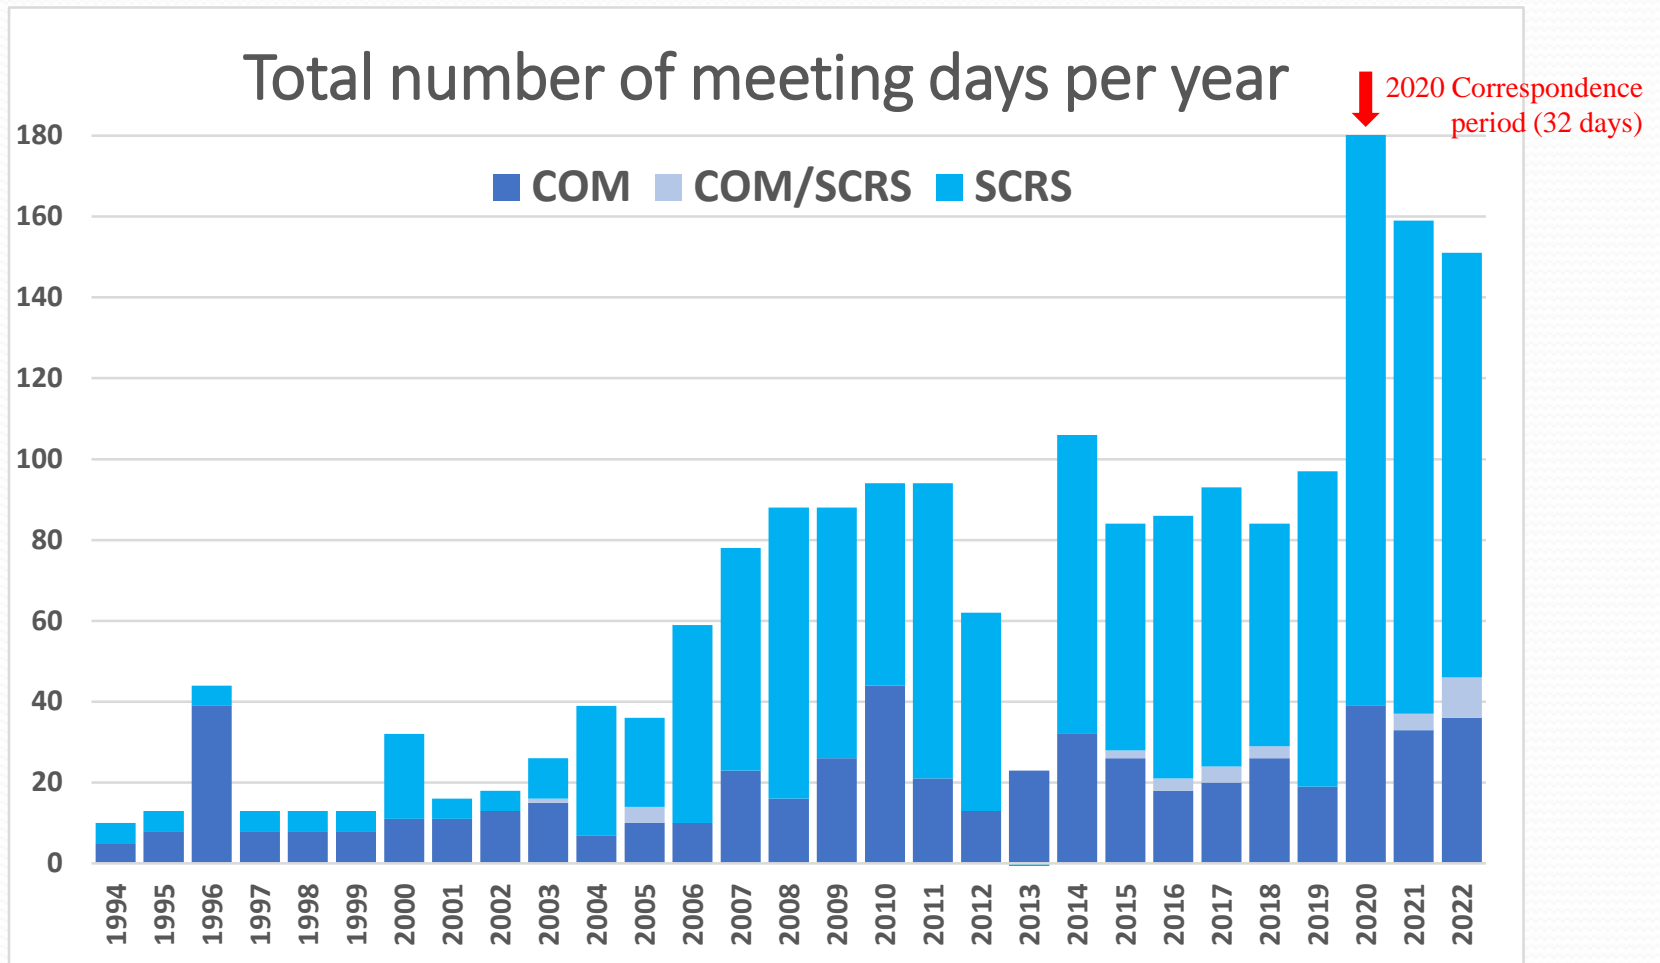

Evolution of the number of meetings over the past 26 years

Secretariat Science/Statistics resources engaged in SCRS meetings have only increased by + 17% as compared to 2013

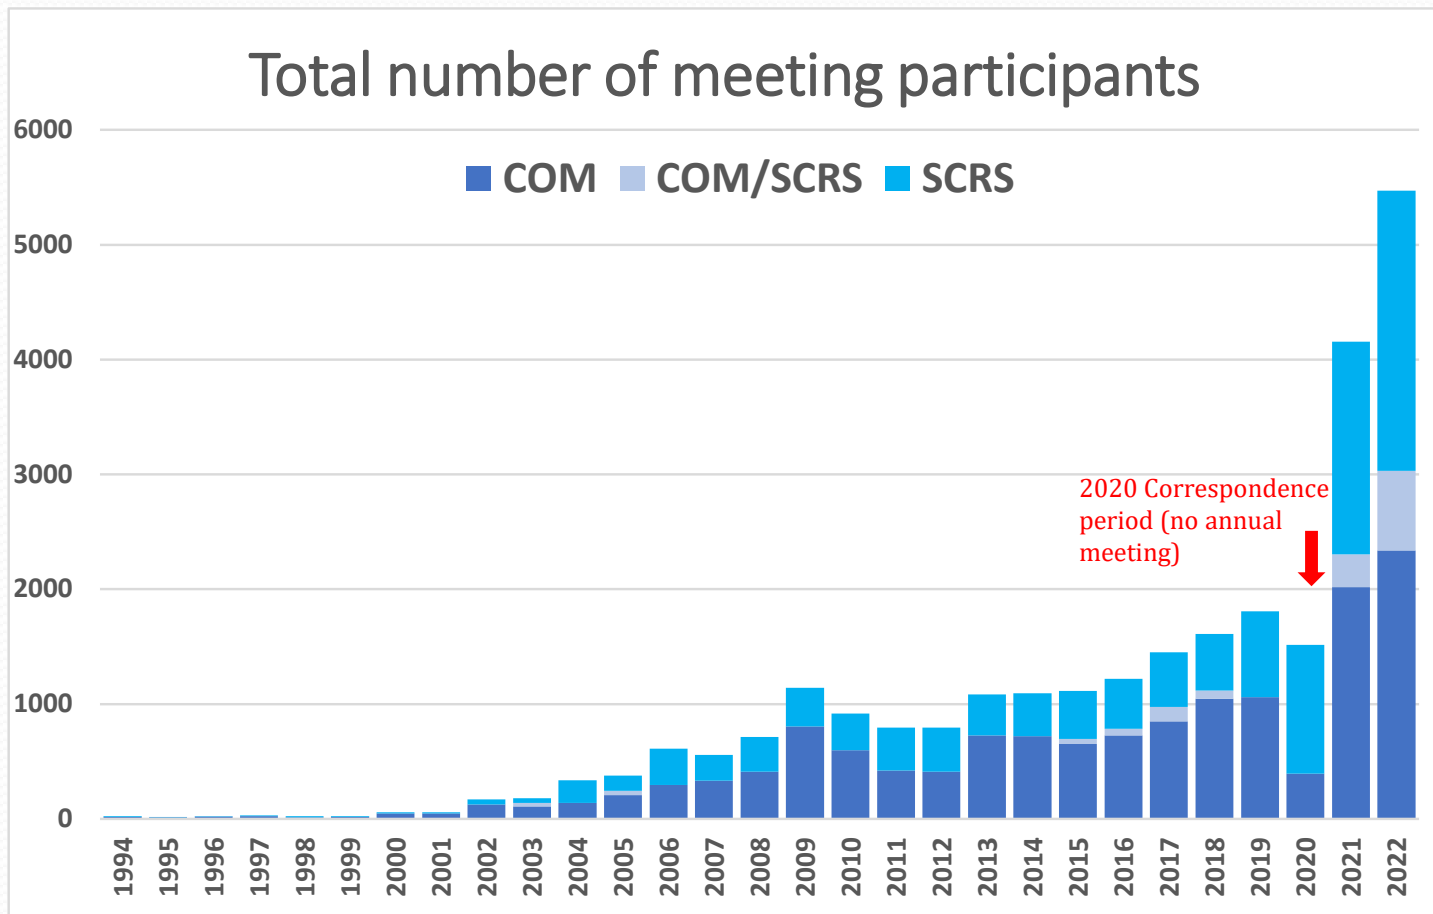

Evolution of total number of meeting days

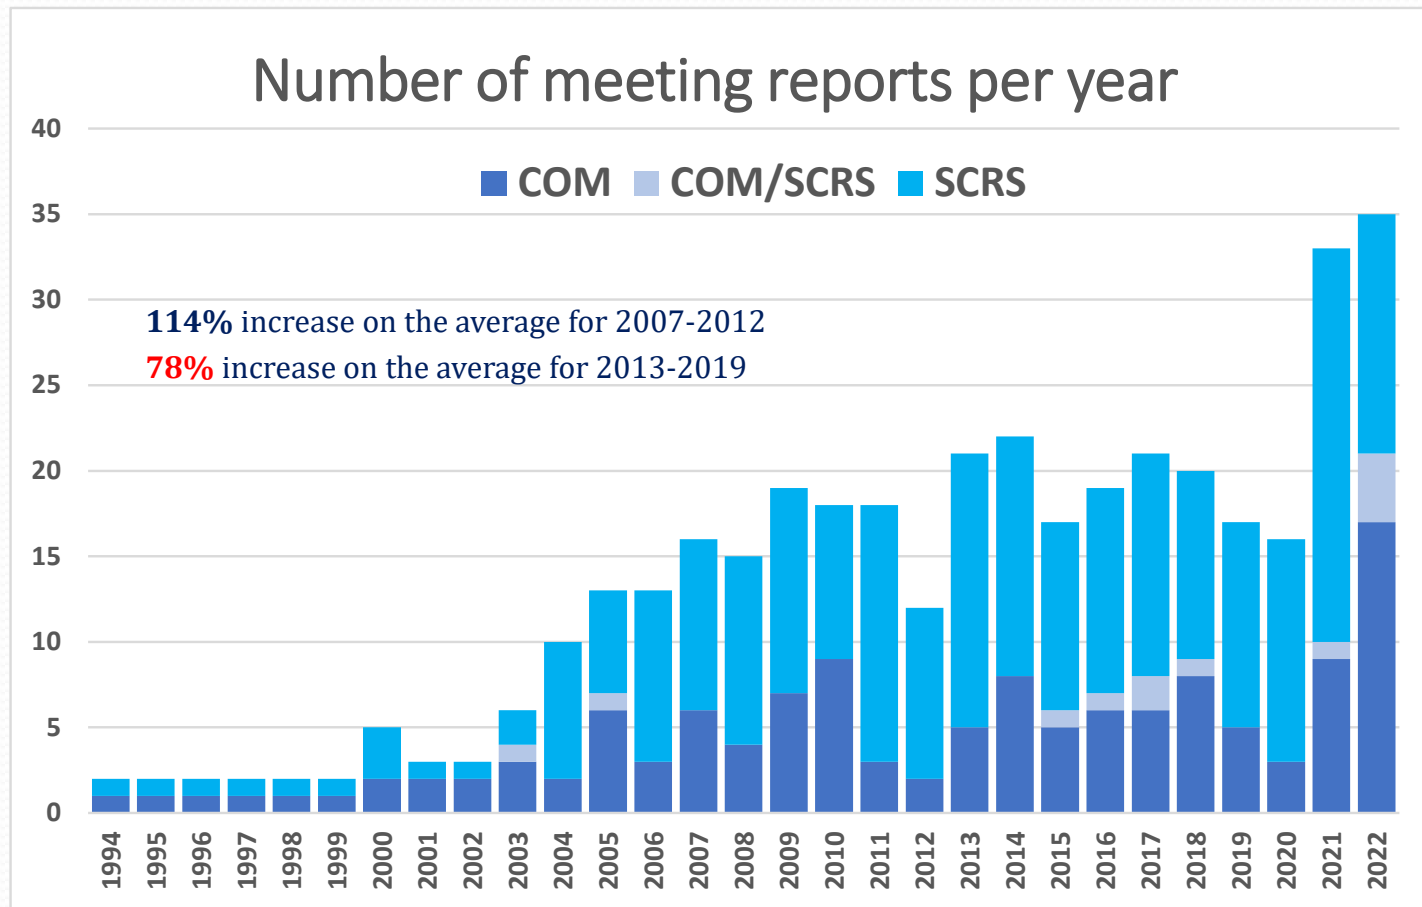

Evolution of the number of participants in ICCAT meetings

Number of administrative staff engaged in meetings has not increased since 2003

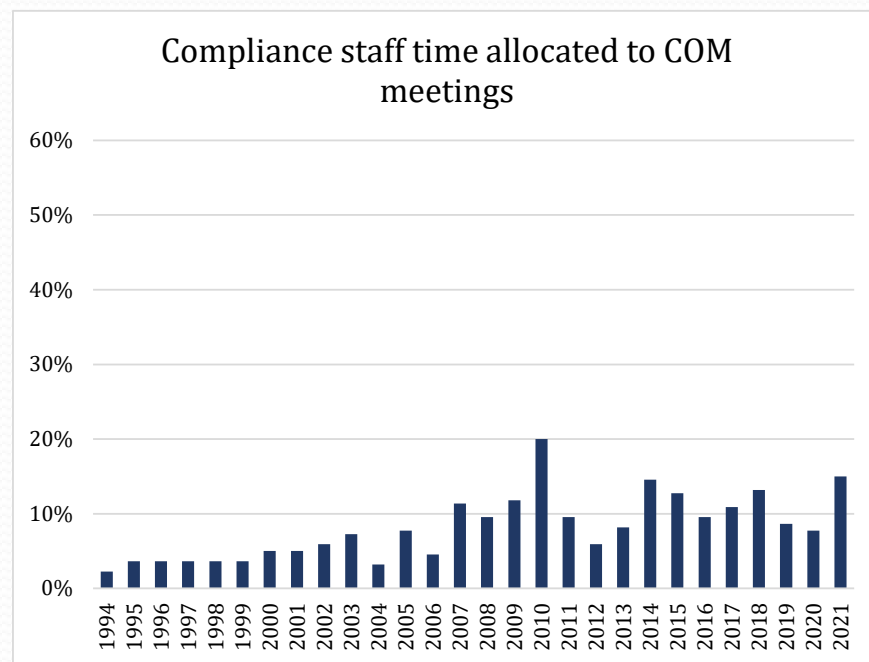

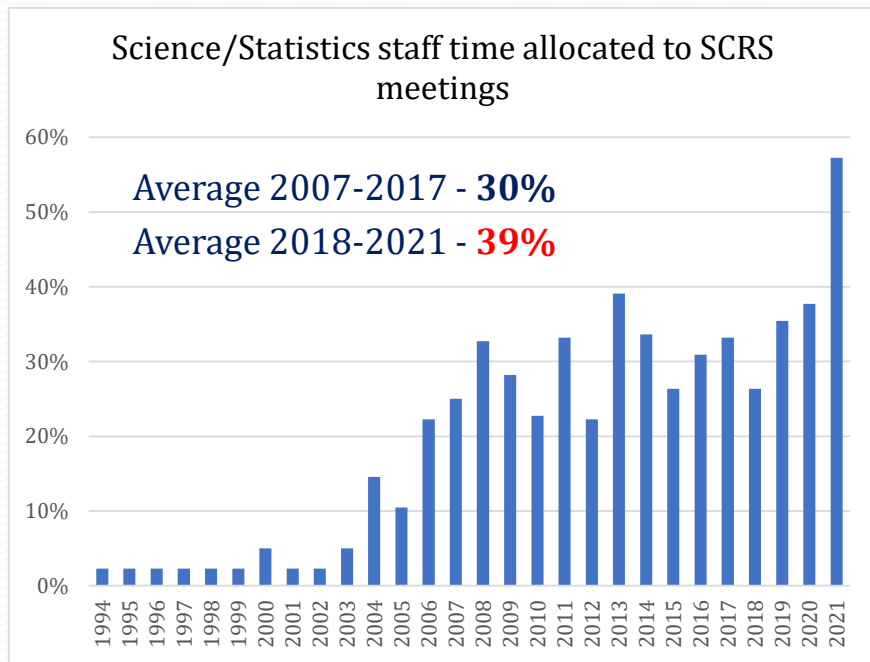

Number of meeting reports over the past 28 years

The number of translators at the Secretariat has not increased since 2004, although an Editor of publications was hired in 2022

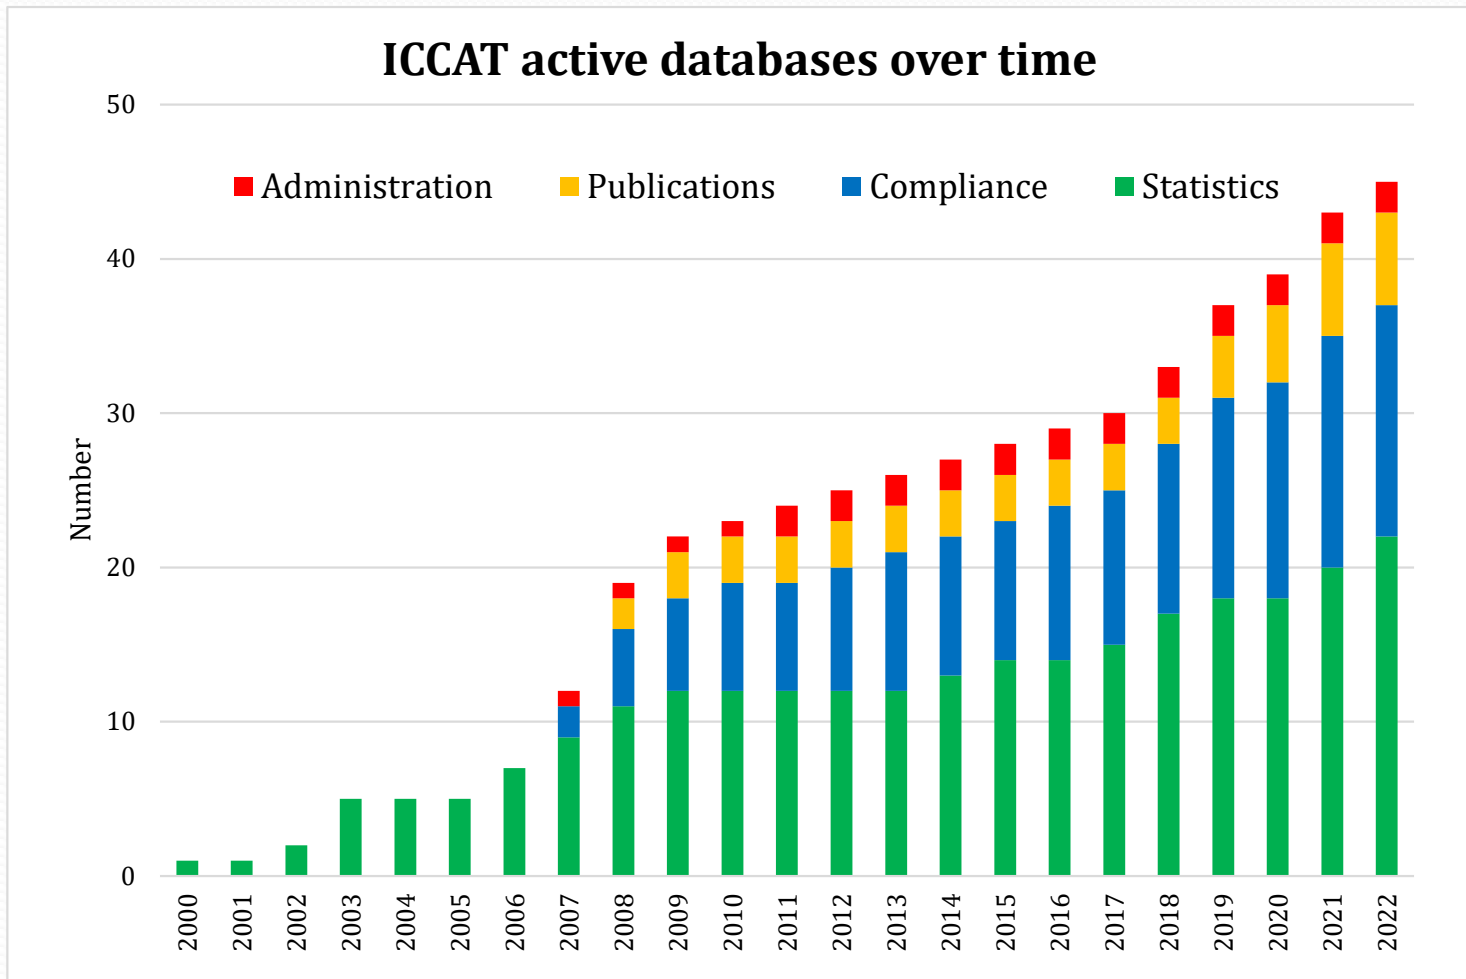

Evolution of percentage of staff time allocated to meeting attendance (preparatory and reporting work not included)

- In 2021 the Secretariat Science/Statistics resources time allocation to meetings almost double the average for 2007-2019
- Any allocation above 33% (aprox. 73 days/year) to meetings is unsustainable with the current human resources of the Secretariat

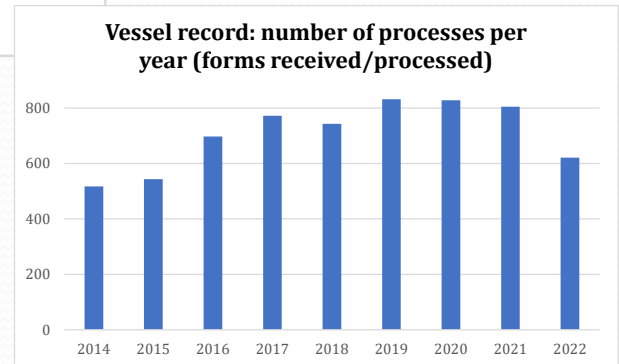

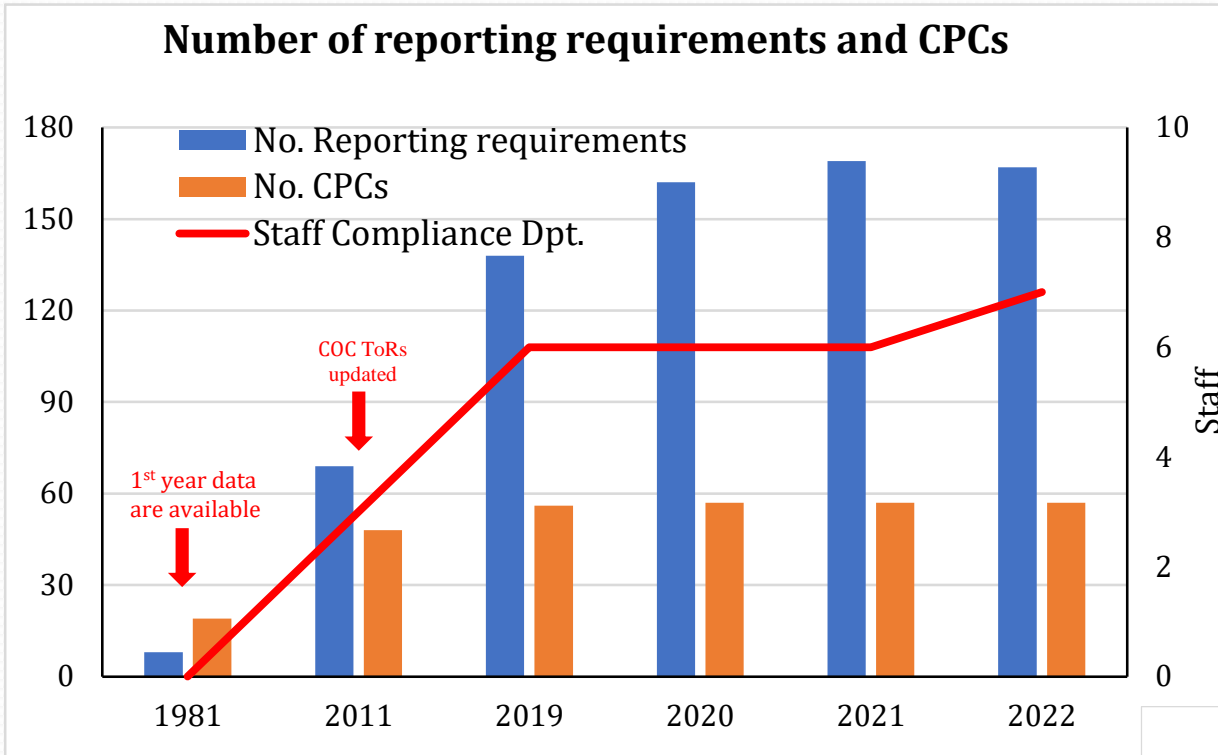

Evolution of the number of active databases in ICCAT-DB system

Number of reporting requirements and CPCs

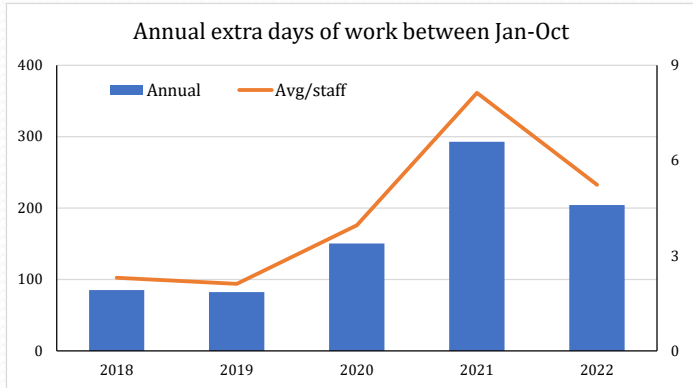

Number of contracts issued and associated staff

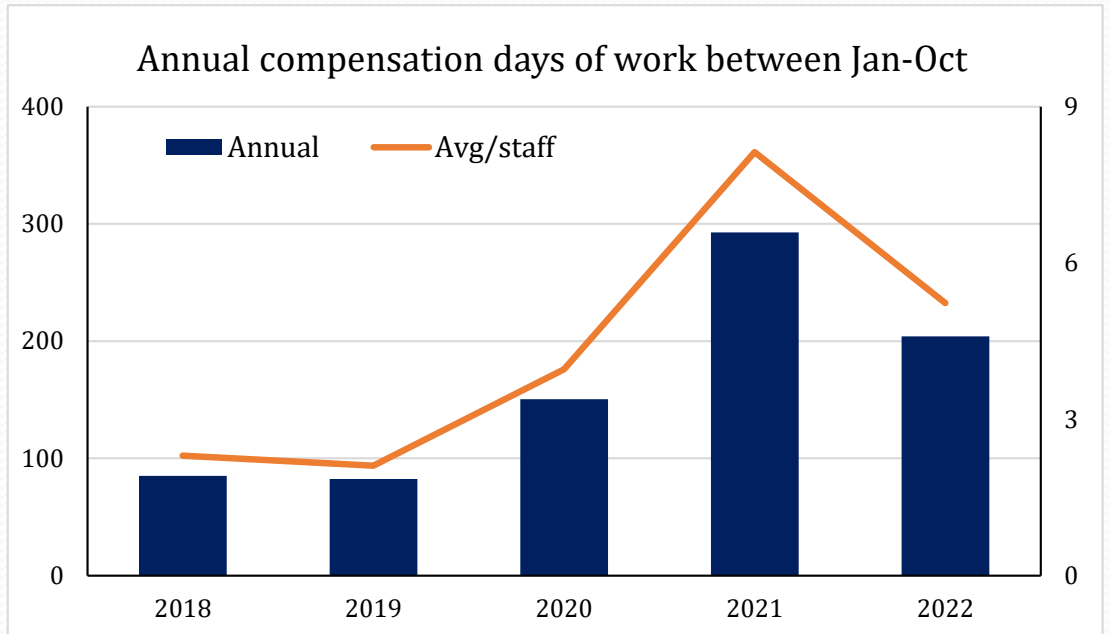

Need to consider additional assistance for management and closer follow-up of the contracts

Annual extra working days by staff and compensation

=>

Accumulated and mean number of holidays per year (and staff) due to the accumulation of extra hours and/or difficulties in taking full number of annual leave days
