

## Explanatory note on the ICCAT budget for financial years 2024-2025

In accordance with the provisions contained in Article X.1 of the ICCAT Convention and in Regulation 2 of the Financial Regulations, the Secretariat must submit the draft budget for the next two financial years, 2024 and 2025, to the Commission for its consideration and adoption.

The purpose of this note is to present the main lines of the proposed draft budget for 2024-2025, the structure, the elements of the different headings and the impact on the contributions of ICCAT members.

This budget for the next two financial years takes into account the Commission's decision to continue regularising activities that have been financed through the Working Capital Fund in the ICCAT budget, with a view to reducing extra-budgetary expenditure.

In order to further strengthen the financial situation, Contracting Parties are asked to make an effort to increase their budgetary contributions.

The following tables are attached for study:

- **Table 1 - The Commission's draft budget for 2024-2025**, which presents a detailed breakdown of the estimated increases by chapter.
- **Table 2 - Basic information for calculation of the Contracting Parties' contributions in 2024-2025.**
- **Table 3 - Contracting Parties' 2024 contributions.**
- **Table 4 - 2024 contributions by group**, which reflects the percentage of the budget financed by each member of each group as per the Madrid Protocol.
- **Table 5 - Contracting Parties' 2025 contributions.**
- **Table 6 - 2025 contributions by group**, which reflects the percentage of the budget financed by each member of each group as per the Madrid Protocol.
- **Table 7 - The Contracting Parties' catch and canning figures (in t).**
- **Annex** with table legends

### 1. Proposed expenditure budget

The Secretariat's proposed budget contains an increase of 3.72% for financial year 2024 with respect to 2023, in addition to an increase of 7.37% for 2025 with respect to 2024, as shown in **Table 1**.

Below is a description of the chapters and sub-chapters that contain changes:

- **Chapter 1 - Salaries:** The presented draft budget includes an increase of 4.68% with respect to 2023. In addition to the updates to the salary scale published by the ICSC for existing staff in 2023, this amount also includes an estimate of increases to these scales for the different professional categories in 2024.
- **Chapter 2 - Travel:** The Secretariat proposes an increase of 12.50% to this chapter with respect to 2023 due to increases in the price of travel tickets and per diem costs, in addition to an overall increase in travel by the Secretariat needed to support core Commission activities.
- **Chapter 3 - Commission meetings (annual and intersessional):** The Secretariat proposes an increase of 23.79% to continue regularising this chapter over this biennial period and the next in order to cover the real cost of both the annual Commission meeting and the increased number of intersessional meetings. It has become increasingly difficult and unpredictable for Contracting Parties to extend an offer to host the annual meeting, which has resulted in higher meeting costs overall as arrangements have needed to be made last minute. Establishing an adequate and predictable funding level within the regular budget will enable Contracting Parties to volunteer to host meetings at least two years in advance, increasing both the certainty for the Commission and the ability to secure the most cost-effective arrangements.

- **Chapter 5 – Office equipment:** The Secretariat proposes an increase of 4.73% based on the price update for 2024.
- **Chapter 8 – Coordination of research:**
  - a) **Salaries:** In the presented draft, this sub-chapter contains an increase of 12.12% with respect to 2023, which reflects the anticipated updates to the ICSC salary scales for 2024 and 2025 and a new position in information technology (IT) to meet the growing workload of tasks that are currently carried out by a single person.
  - b) **Travel to improve statistics:** An increase of 16.67% with respect to 2023 is proposed due to the generalised increase in the price of travel tickets and per diem costs.
  - c) **Statistics-Biology:** This sub-chapter contains an increase of 12.42% to replace computers and software needed by the Statistics and Science Departments.
  - d) **Computer-related items:** An increase of 65.60% is proposed in this sub-chapter to enhance the protection of computer software and replace obsolete server disk cabinets, in addition to other hardware and software.
  - e) **Database maintenance:** An increase of 25.85% with respect to 2023 is proposed to cover maintenance of the new IOMS servers.
  - g) **Scientific meetings (including SCRS):** This sub-chapter contains an increase of 8.72% due to the growing number of scientific meetings.
  - h) **Interpretation SCRS meetings:** The Secretariat proposes a decrease of 14.74% to readjust for the number of days on which interpretation is planned to be requested for SCRS meetings in 2024.
- **Chapter 11 – Strategic Research Programme.** In 2024, it is proposed to reduce this chapter by 89.20%. The Secretariat will use the balance of the Science Research Programme from previous years to cover the activities proposed by the SCRS for 2024. For 2025, it is estimated that the balance from previous years will have already been utilised. Therefore, the level requested in 2023 will be maintained. This will continue to be regularised in future budgets until a level is reached that would cover all of the activities required by the SCRS to meet the Commission's requests. The strong increase in the number of science-related contracts requires an increase in the number of human resources at the Secretariat to properly manage those contracts. Furthermore, we have been advised by the legal expert that signing contracts with GBYP staff year after year is highly problematic and could lead to legal issues, and the current three GBYP staff members must be gradually integrated into permanent positions. Moreover, the major funder of the Science Envelope has been informing the Commission that they will reduce their voluntary contribution to GBYP to increase their voluntary contribution to other species; GBYP staff salaries currently account for close to 50% of the overall GBYP budget. The proposed plan to convert these contract positions to permanent positions will enable us to eliminate the legal risks of continuing to maintain annual contracts year after year and will reduce the proportion of the GBYP budget dedicated to salaries, which will ensure that an overall reduction in funding for GBYP will not endanger core scientific activities. In addition, if these three positions are made permanent, they will no longer be subject to the condition that they may work only on GBYP, as is the case under these contracts. This will allow them to support a wider range of science-related matters and will provide greater flexibility and more human resources within the Secretariat to manage the science contracts package.

- **Chapter 13 – Travel.** The increases presented for approval are as follows:
  - a) **Travel by ICCAT and SCRS Chairs.** An increase of 16.50% with respect to 2023 is presented in order to gradually update the budget of this sub-chapter and accommodate increasing travel costs.
  - b) **Special Meeting Participation Fund:** An increase of 47.06% with respect to 2023 is presented in order to gradually update the budget of this sub-chapter due to increasing travel costs.
  - c) **Travel by ICCAT Officers (ICCAT Developing Contracting Parties).** An increase of 100.00% with respect to 2023 is presented to gradually update the budget of this sub-chapter to the pre-pandemic amount and accommodate increasing travel costs.
  
- **Chapter 14 – Integrated Online Management System (IOMS):** The Secretariat submits the proposal of the Online Reporting Technology Working Group for approval. In order to implement the next phase of the IOMS, the proposal requests two additional software developers to be hired beginning in June 2024, when the current contract co-funded by the European Union will end. The increase for 2024 is 54.98% with respect to the previous year.

Items that are not mentioned above contain either no or only minor variations ( $\pm 1.50\%$ ) as the amounts are rounded.

An increase of 7.37% has been proposed for the 2025 budget and will be reviewed next year.

## 2. Proposed revenue budget

The annual contributions to the 2024 and 2025 budget are presented in **Tables 3** and **5**, respectively, in accordance with Regulation 4 of the Financial Regulations on Provision of Funds and taking into account the proposed expenditure included in point 1.

The proposed budget for 2024-2025 has been estimated based on the most recent data available to the Secretariat. As regards the economic potential of member countries, the GDP per capita for 2021, as published in UNCTAD's Handbook of Statistics 2022, has been used. Catch and canning data reported by Contracting Parties in response to ICCAT Circular #2291/2023, dated 21 March 2023, have been used. For Parties that did not report any data, the Secretariat initially used the data from 27 June 2023 which have now been updated to 27 October 2023.

The changes received from Contracting Parties on Panel membership have been incorporated, as reported by Barbados, to sit on Panels 1 and 4, The Gambia on Panel 1 and the withdrawal of Brazil from Panel 2.

Finally, it should be noted that the Contracting Parties' contributions have been calculated with the United Nations exchange rate of November 2023.
