Report on the implementation of the ICCAT Regional Observer Programme for east Atlantic and Mediterranean bluefin tuna (ROP-BFT)

(ICCAT Secretariat)

The Regional Observer Programme for eastern Atlantic and Mediterranean bluefin tuna (ROP-BFT) was carried out under the provisions of the *Recommendation by ICCAT amending the Recommendation 21-08 establishing a multi-annual management plan for bluefin tuna in the eastern Atlantic and the Mediterranean* (Rec. 22-08), as amended by *Recommendation by ICCAT amending the Recommendation 22-08 establishing a multi-annual management plan for bluefin tuna in the eastern Atlantic and the Mediterranean* (Rec. 23-06).

The provisions of these Recommendations stipulate that observers are to be placed by the ICCAT Secretariat to ensure observer coverage of 100% of purse seine vessels during all the annual fishing season. In this respect, an observer shall be present during the fishing operation; and during all transfer of bluefin tuna to the cages and all harvest of fish from the cage; and during all transfers of bluefin tuna from traps to transport cages.

Implementation in 2024

The ICCAT Secretariat is pleased to report that ICCAT Regional Observers have been embarked on all vessels (202) for which requests for observer deployment were received and confirmed. For this reason, the ICCAT Secretariat did not circulate any interim reports during the season, as the special procedures agreed by the Commission in 2020 were not invoked.

The only observers of the same nationality deployed on vessels were on Türkiye vessels, due to the language issue and in one case a Croatian observer was used for a temporary replacement on an EU-Croatia vessel due to the urgency of the situation, this exception was agreed with the ICCAT Secretariat to enable a rapid replacement. In addition, Turkish observers were used on Türkiye farms.

Regarding the authority of the CPCs concerned, observers for caging and harvesting operations were shared by EU-Croatia, EU-Malta, EU-Spain, Tunisia and Türkiye (which has one farm with three licences and hence three ICCAT numbers but operates as one farm in the same location, as has been the case since the inception of the programme).

The list of vessels flagged to the seven CPCs participating in the programme is attached as **Table 1**.

Since 2009, 869¹ farm deployments and 29 trap deployments have been requested, as shown in **Table 2**. The list of farms participating in the programme is attached as **Table 3**, and a list of traps which were observed by regional observers contained in **Table 4**.

All observer reports have been made available to CPCs as Annex 1 and 2 to COC_305/2024. The lists of potential non-compliance issues detected by observers on vessels, farms and traps are contained in the appendices to COC_305/2024, together with the responses received.

The Consortium MRAG/COFREPECHE continues to implement the Programme. The Report of this Consortium, available as **Annex 1** (Executive Summary attached as **Appendix 1**), contains more details on the implementation of the Programme.

Failure to follow the procedures for requesting deployments on farms and extensions to approved deployments continues to cause difficulties in the implementation, e.g., requests after 96 hours or requests for observers are not accompanied by proof of payment. It should be noted that the ICCAT Secretariat cannot process any requests for which payment has not been made. In addition, a number of requests for deployment on vessels are sent in advance but later cancelled, which creates problems for logistics as the port of embarkation is often not known (or is changed) very near the start of the campaign.

¹ As of 1 October 2024.

In 2024, Regional Observers were again issued with ICCAT seals for use on transport cages where voluntary transfers were not of sufficient quality to allow the correct count of the fish, in accordance with paragraph 128 of *Recommendation by ICCAT amending the Recommendation 19-04 amending Recommendation 18-02 establishing a multi-annual management plan for bluefin tuna in the eastern Atlantic and the mediterranean* (Rec. 21-08).

Future implementation

At present, no significant change is envisaged in the implementation of the ROP-BFT, unless required by any new measures adopted by the Commission. In the short term, early requests for deployment will facilitate timely deployment.

Table 4. Traps observed under the ICCAT Regional Observers Programme (ROP) in 2022-2024.

Consortium's report on the implementation of the ICCAT Regional Observer Programme for east Atlantic and Mediterranean bluefin tuna (ROP-BFT)

(Executive Summary)

The service provider for implementing year fifteen (April 2024 / March 2025) of the ICCAT ROP-BFT (hereafter the Programme) comprises of a Consortium led by the Marine Resources Assessment Group (MRAG) Ltd (hereafter MRAG) based in London, UK, and the *Coopération Française pour l'Exploitation des Ressources de la Mer* (COFREPECHE) in Paris, France. The Consortium is assisted by regional partners (Sur-Koop in Türkiye, and Oceanis in Italy and Malta), as well as regional hubs managed by associate staff in Algeria, Croatia, Portugal and Spain (hereafter the Consortium) **(Table 1)**.

Region	CPC Coverage	Consortium & Associates Coverage
Eastern Mediterranean and Adriatic Sea	Türkiye EU.Croatia Libya Morocco	MRAG (UK) Sür-Koop (Türkiye) MRAG Associate staff (Croatia)
Southern and central Mediterranean	Türkiye Libya Algeria Tunisia Morocco Albania	Cofrepeche (France) Cofrepeche Associate staff (Algeria and Tunisia) Sür-Koop (Türkiye) Oceanis (Malta)
Western Mediterranean	EU.Cyprus EU.France EU.Italy EU.Malta EU.Portugal EU.Spain	MRAG (UK) Cofrepeche (France) MRAG Associate staff (Spain) MRAG Associate staff (Portugal) Oceanis (Italy and Malta)
Norway	Norway	MRAG (UK) MRAG Associate staff (Spain) MRAG Associate staff (Croatia)

Table 1. List of regional partners and hubs

The Programme allows the ICCAT to assess compliance with the regulatory framework. This report summarises a total of 209 deployments on authorised purse seiners during the 2024 fishing season, as well as the 37 farm and 2 trap deployments completed to date since the start of the current contract. In addition, 33 farm deployments are included from the previous season following the submission of the last annual report and the start of the current contract for services.

One hundred percent observer coverage has been achieved on all authorised purse seiners, farms and traps within the remit of the Programme, which included monitoring fishing, transfer, caging, release and harvesting activities.

This report describes the key issues and developments in implementing the Programme in year fifteen in line with the requirements. These are divided into operational and technical categories and provide perspective on issues that affected the observer role during deployments. The ability of observers to estimate numbers of tuna and comparisons with official estimates during transfer and caging operations are reviewed. Potential non-compliance events (PNC) recorded by observers are summarised, including both those reported for transfer and caging operations as well as for general events.
