Cover sheet to accompany new proposals

(submitted by the United States, Canada, Belize, South Africa, the European Union, Guatemala, Nicaragua, Panama, Norway, Liberia, Mexico, Egypt, St Vincent and the Grenadines, Barbados, Costa Rica, The Gambia, United Kingdom, France (on behalf of Saint Pierre and Miquelon), Trinidad & Tobago and Gabon)

Title of the Proposed Draft Recommendation/Resolution: Draft Recommendation by ICCAT concerning the conservation of sharks caught in association with fisheries managed by ICCAT

Title of currently in force recommendation(s) or resolution(s) addressing the same or related issues: Recommendation by ICCAT concerning the conservation of sharks caught in association with fisheries managed by ICCAT

(Re	c. 04-10)
1.	Does it create new reporting obligation(s) for CPCs? Yes □ No ⊠
	Brief description of new reporting obligation(s): <i>None</i> .
2.	Does it require additional input or work by the SCRS ? Yes \square No \boxtimes
	Is this work already included in the current SCRS workplan $$
	Brief description of new scientific work required (i.e. stock assessment, analysis, external consultant): <i>None.</i>
3.	Does it involve the creation of a new working group or intersessional process ? Yes \square No \boxtimes
4.	Does it require a new programme or additional activities to be managed by the Secretariat ?
	Yes □ No ⊠
	Brief description of new Secretariat work required: <i>None</i> .
5.	What is the proposed timeframe for implementation, and are there different specific timeframes for certain CPCs, fisheries, regions, etc.:
	The measure would enter into force 6 months from notification to CPCs, consistent with the ICCAT Convention.
6.	Is there any other relevant information regarding the resource and workload implications of the proposal:
	None.

Draft Recommendation by ICCAT concerning the conservation of sharks caught in association with fisheries managed by ICCAT

(submitted by the United States, Canada, Belize, South Africa, the European Union, Guatemala, Nicaragua, Panama, Norway, Liberia, Mexico, Egypt, St Vincent and the Grenadines, Barbados, Costa Rica, The Gambia, United Kingdom, France (on behalf of Saint Pierre and Miquelon), Trinidad & Tobago and Gabon)

(previously presented as PA4_809_SPONS_13/2023)

RECALLING that the United Nations Food and Agriculture Organization (FAO) International Plan of Action for Sharks calls on States to cooperate through regional fisheries organizations to ensure the sustainability of shark stocks;

ALSO RECALLING that the FAO International Plan of Action for Sharks calls on States to facilitate improved species-specific catch and landings data and monitoring of shark catches;

CONSCIOUS that the use of fin-to-carcass-weight ratios is not an adequate means of ensuring that sharks are not finned;

RECOGNIZING the need to improve the collection of species-specific data on catch, effort, and discards as a basis for improving the conservation and management of shark stocks;

AWARE that identifying sharks by species is rarely possible when the fins have been removed from the carcasses;

FURTHER AWARE of the species of oceanic, pelagic, and highly migratory elasmobranchs, listed in Rec. 19-01, that are currently understood to be ICCAT species as defined under the amendments to the Convention contained within the Protocol adopted in November 2019;

FURTHER RECALLING that United Nations General Assembly, adopted consensus Resolutions every year from 2007 through 2023 (62/177, 63/112, 64/72, 65/38, 66/68, 67/79, 68/71, 69/109, 70/75, 71/123, 72/72, 73/125, 74/18, 75/89, 76/71, 77/242, and 78/68), calling upon States to take immediate and concerted action to improve the implementation of and compliance with existing regional fisheries management organization or arrangement and national measures that regulate shark fisheries and incidental catch of sharks, in particular those measures which prohibit or restrict fisheries conducted solely for the purpose of harvesting shark fins, and, where necessary, to consider taking other measures, as appropriate, such as requiring that all sharks be landed with each fin naturally attached;

THE INTERNATIONAL COMMISSION FOR THE CONSERVATION OF ATLANTIC TUNAS (ICCAT) RECOMMENDS THAT:

- 1. Contracting Parties and Cooperating non-Contracting Parties, Entities or Fishing Entities (CPCs) shall annually report Task 1 (nominal catches including dead and live discards) and Task 2 (catch and effort, and size) data for sharks, in accordance with ICCAT data reporting procedures. In addition, CPCs should report any historical Task 1 and Task 2 data, as available, that have not yet been submitted to ICCAT.
- 2. CPCs shall prohibit the removal of shark fins at sea and require that all sharks be landed with their fins naturally attached (fully or partially) through the point of first landing of the shark.
- 3. CPCs shall prohibit vessels from retaining on board, transshipping, or landing shark fins harvested in contravention of this Recommendation.
- 4. In fisheries that are not directed at sharks, CPCs shall encourage the release of live sharks unharmed, to the extent practicable, that are caught incidentally and are not used for food and/or subsistence.
- 5. CPCs shall, where possible, undertake research to identify ways to make fishing gear more selective for the protection of sharks and provide relevant information on these efforts to the SCRS.

- 6. CPCs shall, where possible, conduct research on key biological and ecological parameters, life history, behavioural traits and migration patterns, as well as on the identification of potential mating, pupping, and nursery grounds of key shark species in the Convention area and provide the results of such research to the SCRS.
- 7. The Commission shall consider appropriate assistance to developing CPCs for the collection of data on their shark catches.
- 8. This Recommendation applies only to sharks caught in association with fisheries managed by ICCAT.
- 9. This Recommendation replaces *Recommendation by ICCAT Concerning the Conservation of Sharks Caught in Association with Fisheries Managed by ICCAT* (Rec. 04-10).
