

## Secretariat Report to the Permanent Working Group for the improvement of ICCAT Statistics and Conservation Measures (PWG)

(ICCAT Secretariat)

### 1. Trade and other relevant fishery information which may identify deficiencies in ICCAT statistics

The information submitted under [Rec. 06-13](#) is available as “Trade Information - Rec. 06-13” [COC\\_303\\_ANN\\_1/2024](#). No specific elements were noted by the ICCAT Secretariat as requiring review. Trade information on statistical and catch document programmes is given in section 2 below.

Other fisheries information, including catch information show that two Parties/entities or fishing entities (Gibraltar and Sta Lucia) reported catches of tuna or tuna-like species. However, several others, known to have previously taken such species, have not reported in 2023. **Table 1** shows catches reported by NCPs in the last 10 years.

### 2. Statistics document, bluefin catch documentation programmes and other trade data

A comparison between statistical documents data (bi-annual bigeye and swordfish reports) and Task 1 nominal catch data is provided in Tables 24 and 25 of the “2024 ICCAT Secretariat Report on Research and Statistics” ([PLE\\_105/2024](#)).

#### ***Validation and other information required***

Validation information on institutions and people authorized to validate the ICCAT statistical document is published on a [password protected website](#).

In accordance with Recs. [01-21](#) and [01-22](#), data collected under the bi-annual Statistical Documents and/or Re-export Certificates of swordfish and bigeye, which have been updated in several cases, covering the reporting period from the second semester of 2023 (S2/2023) to the first semester of 2024 (S1/2024), were received by the Secretariat from the following CPCs: Canada, Côte d’Ivoire, El Salvador, EU (all flags combined), Japan, Korea (Rep.), Morocco, Norway, Trinidad and Tobago, Türkiye, United Kingdom, United States, and Chinese Taipei. Some late bi-annual reports were made by Canada, Japan, Trinidad and Tobago, United Kingdom.

China (P.R.) and Mexico confirmed no imports of these species to report.

These statistical document programme (SDP) bi-annual reports reveal that some quantities of both bigeye tuna and swordfish continue to be imported by CPCs from unclear/unknown fishing areas and unclassified fishing flags making it difficult to distinguish whether these have submitted their validation information or not. They also show that bigeye imports were made from two fishing flags whose validation information has not yet been submitted to the ICCAT Secretariat. To date, the validation information is still missing from Papua New Guinea and Tanzania regarding bigeye only. The ICCAT Secretariat had contacted these two countries to request them to consider adding SDP validation information for bigeye.

Information on bi-annual reports is published on the [password protected website](#).

#### ***BCDs and BFTRC submission and processing***

The number of electronic BCDs (eBCDs) and bluefin tuna re-export certificates (BFTRCs) recorded in the eBCD system for the period 10 October 2023 to 11 October 2024 is 22075 BCDs (17816 BFTs-E and 4259 BFTs-W) and 2145 BFTRCs.

There have been no new BFTRCs received since October 2022.

Two meetings of the Standing Catch Document Scheme Working Group (CDS WG) were held. The First Meeting of the CDS WG on 4 March 2024, and the Second Meeting of the CDS WG on 11 June 2024. The “Report of the First Meeting of the CDS WG” is available as [PWG\\_403/2024](#) and the “Report of the Second Meeting of the CDS-WG” is available as [PWG\\_404/2024](#).

The First CDS WG meeting focused on the technical issues of the eBCD system, while the Second CDS WG meeting, focused on the extension of the CDS and, regarding the eBCD system, only addressed issues related to the obtaining of the necessary data for the calculation of growth rates and the implementation of the new section of the BCD entitled ‘Processing Information’.

The following developments were put into production:

eBCD System Version 1.43 (January 2024):

- Reference 92: Transshipments linked with eBCD (Para 92 of [Rec. 21-08](#))
- Reference N° 5.5.5: Development of functionality to allow grouping of fish from the same Flag origin/same JFO. [First phase: Cage Registry]
- Reference 6.1: Farming capacity (Paragraph 26 of [Rec. 21-08](#))

eBCD System Version 1.44 (April 2024):

- Reference 2019-8 (35): Trade companies of other countries adapt the system to allow access to NCP
- Include the 'plausible' transformations of declared products between different sections

The following proposals were approved for eBCD development:

- “Tool tips” for product presentations
- Reference 5.5.6.: Mortality during towing voyage
- Reference 3.4. Interannual comparison of tag codes.
- Reference 5.5.5.: Development of functionality to allow grouping of fish from the same flag origin/same JFO [Second phase].
- Paragraph 102 of Rec. 21-08: ICCAT Regional Observer Programme (ROP)

The latest update of the eBCD system (version 1.44) was released on 23 April 2024, as shown on the [ICCAT eBCD website](#), under “See what’s new”.

### **3. Observer Programmes**

#### ***ICCAT Regional Observer Programmes***

The “Report on the implementation of the ICCAT Regional Observer Programme (ROP) for Transshipment 2023/2024” is contained in document [PWG\\_402/2024](#), and the “Report on the implementation of the ICCAT Regional Observer Programme for East Atlantic and Mediterranean bluefin tuna (ROP-BFT)” in document [PA2\\_601/2024](#).

#### ***National / Domestic Observer Programmes***

National observers are currently required on certain percentages of eastern Atlantic and Mediterranean bluefin tuna catching vessels (other than purse seiners) and on all bluefin tuna towing vessels and traps ([Rec. 22-08](#)), as well on tropical tuna vessels fishing in the Gulf of Guinea during the FAD closure ([Rec. 22-01](#)) for compliance purposes. No specific format for the information collected has been developed beyond the standard statistical data forms.

The *Recommendation by ICCAT to Establish Minimum Standards for Fishing Vessel Scientific Observer Programs* (Rec. 16-14) requires the submission of certain information; a summary of information received is contained in “Information on implementation of scientific observer programmes as reported by CPCs” [COC\_318/2024], compiled by the ICCAT Secretariat.

#### **4. At-sea and in-port transshipment requirements**

See the “Report on the implementation of the ICCAT Regional Observer Programme (ROP) for Transshipment 2023/2024” [PWG\_402/2024] above. CPC reports on transshipment (at sea and in port) have been published on the password protected website, together with the comprehensive reports assessing the content and conclusions of observer reports.

#### **5. Rules for chartering and other fishing arrangements**

Summary reports on chartering were submitted in 2024 by Namibia and are contained in Appendix 2 to the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” [COC\_303/2024].

The information on chartering arrangements received by the ICCAT Secretariat in accordance with paragraph 13 of Rec. 13-14 is presented in Table 10 to the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” [COC\_303/2024].

In accordance with Rec. 14-07, the summary of access agreements reported by CPCs is available in Annex 6 to the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” [COC\_303/2024].

#### **6. At-sea vessel sighting and inspection programs**

The reports from the Joint Inspection Scheme carried out in accordance with Rec. 22-08 and Rec. 16-05 have been summarised in Table 2 of the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” [COC\_303/2024].

Information has been received from the EU regarding five vessel sightings and from Algeria regarding twenty-three vessel sightings; these are contained, together, in Annex 11 of the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” [COC\_303/2024]. Lists of agencies, means and inspectors as reported in Annex 4 to the Report. Some inspection reports received included infringements, and some did not, but summaries were not sent in all cases. A summary of reports with infringements reported under the JIS, as well as their responses where available, is published as Appendix 4 of the Report.

The inspection reports with infringements are available in Annex 3 to the Secretariat Report to the ICCAT Conservation and Management Compliance Committee [COC\_303/2024].

#### **7. Port inspection schemes and other port State measures**

The list of ports into which foreign vessels may enter has been published on the [ICCAT website](#), together with contacts and prior-entry request times.

A summary of port inspection reports received is contained in Table 3 of the Secretariat Report to the ICCAT Conservation and Management Compliance Committee [COC\_303/2024]. Apparent infringements and responses are published on the [password protected website](#).

Since 2024, the annual reporting on port inspection activity submitted by CPCs to the ICCAT Secretariat is compiled in Annex 12 of the Secretariat Report to the ICCAT Conservation and Management Compliance Committee [COC\_303/2024].

In 2024, the ICCAT Port Inspection Training Courses initially planned in Namibia for October, is postponed to December. Please see the “Report of the Meeting of the Electronic Systems Working Group (EMS WG)” [[PWG\\_406/2024](#)] for more information.

## 8. Vessel registration requirements

For the current state of the ICCAT Record of Vessels, please see the summary contained in **Table 2**.

The lists of vessels that have carried out fishing operations in the previous year in the tropical, Mediterranean swordfish and eastern Atlantic and Mediterranean bluefin tuna fisheries is presented in Annex 5 of the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” ([COC\\_303/2024](#)).

Some reporting issues persist, such as incomplete reporting of vessel characteristics, particularly those which are mandatory. **Table 3** provides detailed information by CPC in this regard.

As can be seen from **Table 4**, a total of 364 vessels of 20 meters in length overall or greater were reported as being justified in not having an IMO number. Of these, 361 are not commercial vessels, all reported as recreational/sport, and hence are not required to have an IMO number. This year, a total of two (2) commercial vessels of 20 meters in length or greater were reported with unknown IMO numbers, which is not in accordance with ICCAT regulations ([Rec. 21-14](#)), which bring the total number to six (6) as the four (4) cases which were reported in 2023 have not yet been cleared (no IMO numbers provided).

Since the Commission authorised the ICCAT Secretariat to deactivate those vessels whose authorisations have expired, vessels with expired authorisations of 45 or more days are regularly moved to the ICCAT Record of Inactive Vessels.

## 9. Vessel Monitoring System requirements

Information on the VMS messages received at the ICCAT Secretariat is contained in Tables 4, 5 and 6 of the “Secretariat Report to the ICCAT Conservation and Management Compliance Committee” ([COC\\_303/2024](#)).

## 10. Flag State responsibilities

[Rec. 03-12](#) does not require the submission of specific information; the ICCAT Secretariat has nothing to report.

## 11. Review and establishment of the IUU vessel list

The “Draft 2024 IUU list of fishing vessels” presumed to have carried out IUU fishing activities, for consideration and possible adoption by the Commission, is contained in document [PWG\\_405/2024](#).

**Table 1.** Catches by NCPs, 2014-2023.

| <i>Non-CPC</i>  | <i>Species</i> | <i>Catches by year (t)</i> |             |             |             |             |             |             |             |             |             |
